

a gentle, practical guide to

The Ayurvedic Medicine Handbook

आयुर्वेदिक औषधि मार्गदर्शिका

*Uses, doses, side effects & safety of 52 classical medicines —
with home remedies from the Indian kitchen*

ENGLISH · हिन्दी · 11 BODY SYSTEMS · ILLUSTRATED

before we begin

A note to you, the reader

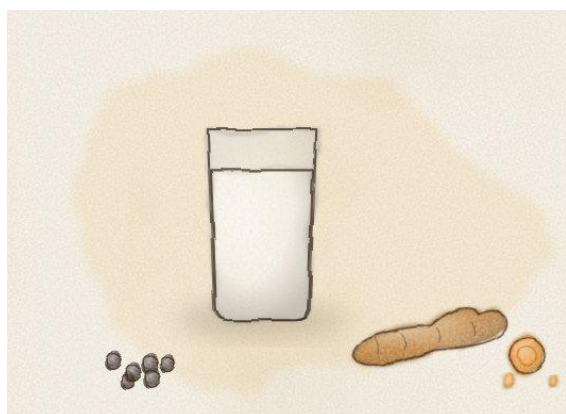

In most Indian homes, Ayurveda is not something you learn from a book. It arrives as a spoonful of honey and Sitopaladi when you cough, a glass of haldi doodh before bed, a jar of Chyawanprash that comes out the moment winter begins.

Somewhere along the way, though, many of us lost the "why" behind these habits. We buy bottles of Arishta and boxes of Vati without really knowing what is inside them, how much to take, or when to be careful.

This handbook is my attempt to bring that understanding back — simply, honestly and in both English and Hindi. Each medicine has its own page: what it is made of, what it is used for, how it is taken, and what to watch out for. Alongside, you'll find a few kitchen remedies our grandmothers trusted, and some myths worth letting go of.

Please use it as a companion, not a prescription. Your Vaidya or doctor knows your body; this book will simply help you ask better questions.

With warmth and good health,

haldi doodh, the first medicine most of us knew

and tulsi kadha on rainy evenings

what's inside

Contents

- 01 **Digestive Health** पाचन स्वास्थ्य · 8 medicines
 - 02 **Liver Care** यकृत (लिवर) स्वास्थ्य · 4 medicines
 - 03 **Respiratory Care** श्वसन तंत्र · 5 medicines
 - 04 **Fever & Immunity** ज्वर एवं रोग प्रतिरोधक क्षमता · 5 medicines
 - 05 **Mind, Memory & Sleep** मन, स्मृति एवं नींद · 5 medicines
 - 06 **Joints & Muscles** जोड़ एवं मांसपेशियाँ · 5 medicines
 - 07 **Heart & Circulation** हृदय एवं रक्त संचार · 3 medicines
 - 08 **Skin Health** त्वचा स्वास्थ्य · 5 medicines
 - 09 **Urinary & Kidney Care** मूत्र एवं गुर्दा स्वास्थ्य · 4 medicines
 - 10 **Women's Health** स्त्री स्वास्थ्य · 4 medicines
 - 11 **Sugar & Weight** मधुमेह एवं वज़न · 4 medicines

getting started & extras

A note to the reader · Please read first · Ayurveda in a nutshell · Forms of medicine · The kitchen pharmacy · Dadi–Nani ke nuskhe · Myth or fact? · Measures, timing & anupan · Safety first · Quick reference A–Z · Glossary

important

Please read this first

This is an educational handbook about commonly used Ayurvedic medicines. It is meant to help you understand your medicines — not to diagnose or treat any illness on your own.

This book is not a prescription

Doses listed are general adult doses drawn from standard Ayurvedic formularies. Your own dose depends on your age, strength, digestion, the season and the nature of your illness. Always consult a registered Ayurvedic practitioner (BAMS / MD Ayurveda) or your physician before starting, stopping or combining any medicine.

Do

- ~ Tell every doctor about all the herbal products you take.
- ~ Buy from licensed, GMP-certified manufacturers.
- ~ Stop and seek help at any unusual reaction.

Don't

- ~ Stop prescribed modern medicines on your own.
- ~ Use herbo-mineral (Rasa) medicines without supervision.
- ~ Treat emergencies at home — chest pain, breathing trouble, high fever, bleeding.

How to read a medicine page

the painting ~ shows the medicine and its key ingredients, with handwritten labels.

uses ~ traditional uses, in English and Hindi.

the green box ~ dose, timing and anupan (what to take it with).

two boxes ~ possible side effects, and who should avoid it.

the yellow note ~ a practical tip or a story behind the medicine.

UNDER MEDICAL SUPERVISION ~ marks medicines that must only be taken on a doctor's advice.

Ayurveda in a nutshell

Ayurveda — "the knowledge of life" — sees health as a balance between body, mind and the world around us. Treatment is the art of restoring that balance.

the three doshas

Vata governs movement — breath, circulation, nerves. Out of balance: dryness, pain, gas, anxiety, poor sleep.

Pitta governs transformation — digestion, metabolism, heat. Out of balance: acidity, inflammation, rashes, irritability.

Kapha governs structure — joints, mucus, immunity. Out of balance: congestion, heaviness, weight gain, lethargy.

Agni अग्नि

The digestive fire. Strong Agni builds healthy tissue; weak Agni is where most illness begins.

Ama आम

Sticky, undigested residue. A coated tongue, heaviness and dull aches are its signs.

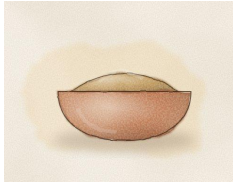

Rasayana रसायन

Rejuvenation. Herbs like Amla, Ashwagandha and Giloy are taken over months to build strength.

know your medicine

The many forms of medicine

The same herb can be a powder, a tablet, a fermented tonic or an oil. Here's how to recognise each one.

Churna चूर्ण

Herbs dried and ground fine. Easy to adjust the dose; taken with water, honey or ghee.

Vati वटी

Pressed tablets. 'Ghan Vati' means a concentrated extract tablet.

Guggulu गुग्गुलु

Tablets built on purified Guggulu resin — for joints, fat and swelling.

Rasa Aushadhi रस औषधि

Herbo-mineral medicines with purified metals or minerals. Potent; always supervised.

Asava / Arishta आसव / अरिष्ट

Herbs naturally fermented with jaggery into a self-preserving tonic with 5–10% alcohol.

Avaleha अवलेह

Herbs cooked with sugar or jaggery, ghee and honey into a jam, like Chyawanprash.

Kwath काथ

A decoction made by boiling herbs; ready-made versions are diluted before use.

Taila तैल

Herbs slowly cooked into sesame oil for massage and other external therapies.

Single Herb एकल औषधि

A single herb on its own, as powder, capsule or standardised extract.

Syrup शरबत

Modern sweetened liquids, popular for children. Check the sugar if diabetic.

look in your rasoi

The kitchen pharmacy

Long before there were bottles and boxes, there was the masala dabba. Many of the herbs in this book's formulas are already sitting in your kitchen.

a dozen everyday healers

Trikatu — the three pungents

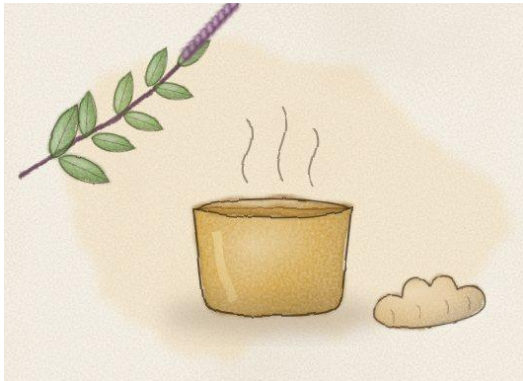

Dry ginger, black pepper and pippali together wake up a sluggish digestion. You'll spot this trio in Avipattikar, Talisadi, Hingvashtak and dozens more.

Triphala — the three fruits

Amla, haritaki and bibhitaki form the most famous combination in Ayurveda: a gentle cleanser and daily tonic for the gut.

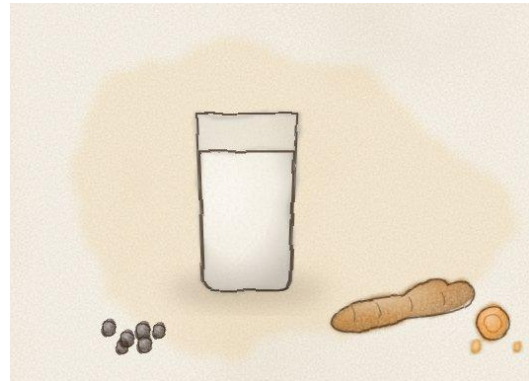

from grandmother's kitchen

Dadi–Nani ke nuskhe दादी-नानी के नुस्खे

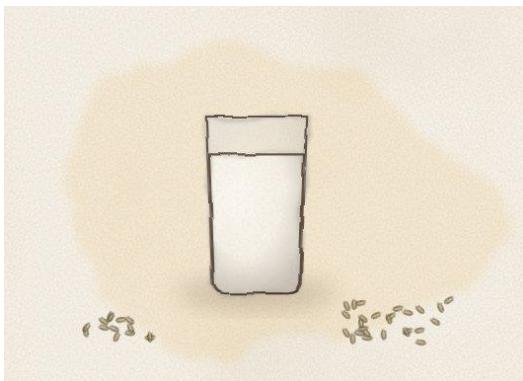

Tulsi–adrak kadha तुलसी-अदरक काढ़ा *for colds & sore throat*

Boil 5–6 tulsi leaves, a thumb of crushed ginger and 2–3 crushed black peppercorns in 1½ cups water until 1 cup remains. Strain, let it turn warm, then stir in a teaspoon of honey.

Haldi doodh हल्दी दूध *for cough, aches & sleep*

Simmer 1 cup milk with ¼–½ tsp turmeric and a pinch of black pepper for 3–4 minutes. Sweeten lightly with jaggery if you like. Drink warm at bedtime.

Ajwain paani अजवाइन पानी *for gas & bloating*

Boil 1 tsp ajwain in a glass of water for 5 minutes. Strain and sip warm after a heavy meal. A pinch of black salt makes it taste better.

Jeera paani जीरा पानी *for everyday digestion*

Soak 1 tsp cumin seeds in a glass of water overnight, or boil for 5 minutes. Strain and drink warm in the morning.

Remember ~ never add honey to boiling liquids, use smaller amounts for children, and see a doctor if symptoms last more than 3 days.

clearing things up

Myth or fact?

A few common beliefs about Ayurvedic medicines — and what is actually true.

what people say...

...what's actually true

✗ “Herbal means 100% safe.”

✓ Herbs are medicines. They can cause side effects, interact with tablets and harm the liver or kidneys if misused.

✗ “A bigger dose works faster.”

✓ More is rarely better. Overdosing causes problems like loose motions, acidity or toxicity — stick to the dose.

✗ “Once I start Ayurveda, I can stop my BP or sugar tablets.”

✓ Never stop prescribed medicines on your own. Work with both doctors and monitor your readings.

✗ “Ayurvedic medicines never expire.”

✓ Most products carry an expiry date — powders lose strength fastest. Check the label and store them dry and sealed.

✗ “If it is sold online, it must be genuine.”

✓ Look for a manufacturing licence number, batch number and full ingredient list. Avoid unlabelled loose powders.

Measures, timing & anupan

Household measures

Measure	About
1 level tsp churna	3–4 g
1 heaped tsp churna	5–6 g
1 tsp liquid	5 ml
1 tbsp liquid	15 ml
1 tablet	usually 250 or 500 mg
1 ratti (classical)	about 125 mg

tip: a small kitchen scale is the most accurate!

When to take it

Timing	Often chosen for
Empty stomach	Cleansing, Kapha, weight
Before meals	Acidity, urinary problems
With first morsel	Appetite and gas
After meals	Arishtas, heart, most tablets
At bedtime	Constipation, sleep, strength

Anupan — the vehicle

Anupan is what a medicine is taken with. It carries the herbs to the right tissue and fine-tunes their effect.

Anupan	Why
Warm water · गुनगुना पानी	Neutral; helps absorption
Honey · शहद	For cough and Kapha — never heated
Ghee · घी	Nourishing; carries herbs to the mind
Warm milk · दूध	Building and calming
Buttermilk · छाछ	For gut, liver, iron medicines
Rice water · तंडुलोदक	Cooling; for bleeding conditions

read before using any medicine

Safety first

Herbo-mineral (Rasa) medicines

Medicines like Sutshekhar Ras, Arogyavardhini Vati and Mahayograj Guggulu contain metals or minerals — mercury, lead, copper, iron, gold — purified by traditional methods (shodhana). Well made and briefly used in the right dose, they are part of classical practice. Poorly made or misused, they can cause heavy-metal toxicity. Use them only on prescription, for the prescribed period, from licensed makers.

Pregnancy & breastfeeding

Avoid purgatives, heating formulas, Rasa medicines, Arishtas and herbs like Vasa, Kalmegh and Neem unless specifically prescribed.

Children & elders

Children's doses are much smaller and must come from a doctor. Older adults on several medicines may need lower doses.

Herb–drug interactions

Gudmar, Giloy and Neem can lower sugar; Sarpagandha and Arjuna act on blood pressure; Tulsi and Shallaki may thin the blood; Ashwagandha and Guggulu can affect thyroid medicines.

Sugar & alcohol

Avalehas and Khand preparations contain sugar; Asavas and Arishtas contain natural alcohol.

Smart buying checklist ~ licence number on the label · GMP-certified maker · batch number & expiry date · full ingredient list · sealed pack · no unlabelled loose powders.

chapter one

Digestive Health

पाचन स्वास्थ्य

In Ayurveda, almost every illness is traced back to a weak digestive fire, called Agni. When Agni is balanced, food turns into nourishment; when it falters, undigested residue (Ama) builds up. The remedies in this chapter kindle appetite, ease gas and acidity, and keep the bowels regular.

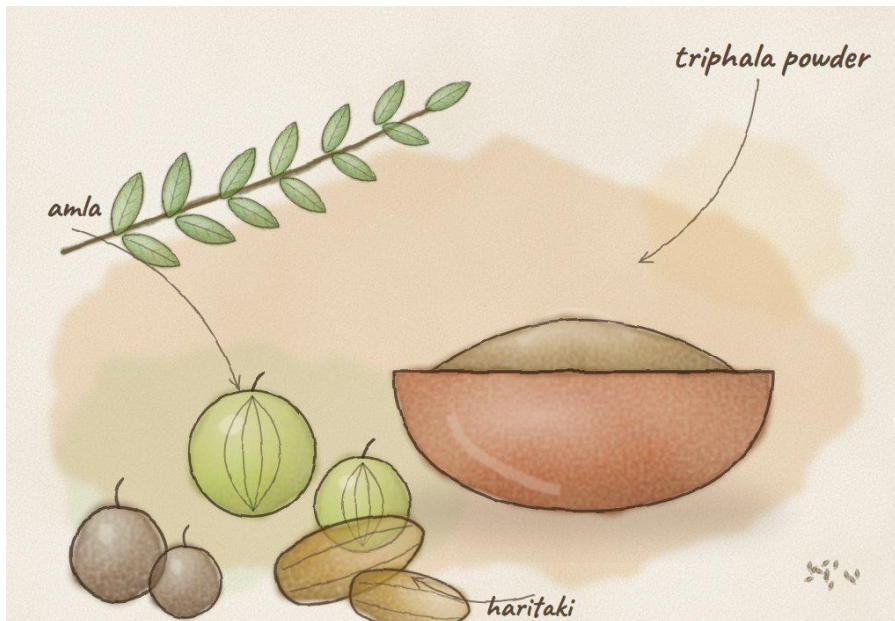

- 01 Triphala Churna
- 02 Avipattikar Churna
- 03 Hingvashtak Churna
- 04 Chitrakadi Vati
- 05 Isabgol (Psyllium Husk)
- 06 Kutajghan Vati
- 07 Kamdudha Ras
- 08 Sutshekhar Ras

01 Triphala Churna

त्रिफला चूर्ण

CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Equal parts of three fruits: Haritaki, Bibhitaki and Amalaki (Indian gooseberry).

Uses उपयोग

- 1 **Constipation** · कब्ज
- 2 **Sluggish digestion** · धीमा पाचन
- 3 **Gentle daily detox** · शरीर शुद्धि
- 4 **Eye and gut wellness** · आँखों व आंतों का स्वास्थ्य

How to take सेवन विधि

dose · **3–6 g**

when · **At bedtime**

take with · **Warm water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Loose stools or mild cramps if the dose is too high
- ~ Can cause dehydration with overuse

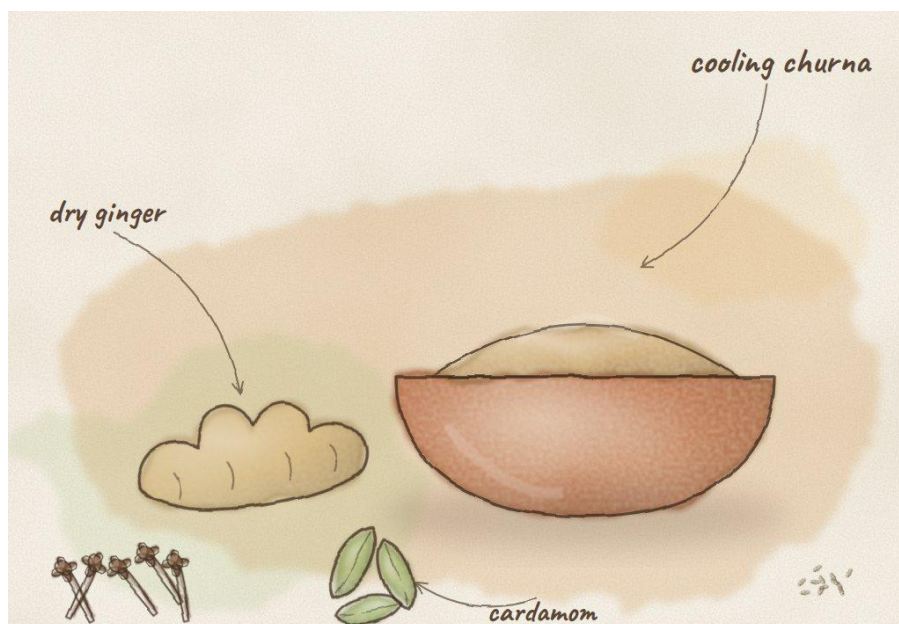

Avoid or take care if सावधानी

- ~ Pregnancy
- ~ Active diarrhoea or dysentery
- ~ Very weak or underweight persons without advice

Vaidya's note ~ Start with 2–3 g and increase slowly. Soaking the powder in water overnight and drinking it in the morning is a milder way to take it.

02 Avipattikar Churna

अविपत्तिकर चूर्ण CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Trikatu (dry ginger, black pepper, long pepper), Triphala, Musta, Vidanga, cardamom, bay leaf, clove, Trivrit and sugar.

Uses उपयोग

- 1 **Hyperacidity** · एसिडिटी
- 2 **Heartburn** · सीने में जलन
- 3 **Constipation with acidity** · एसिडिटी के साथ कब्ज
- 4 **Sour belching** · खट्टी डकार

How to take सेवन विधि

dose · **3–6 g**

when · **Before meals, twice daily**

take with · **Water or coconut water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Loose motions in higher doses
- ~ Abdominal cramping in sensitive people

Avoid or take care if सावधानी

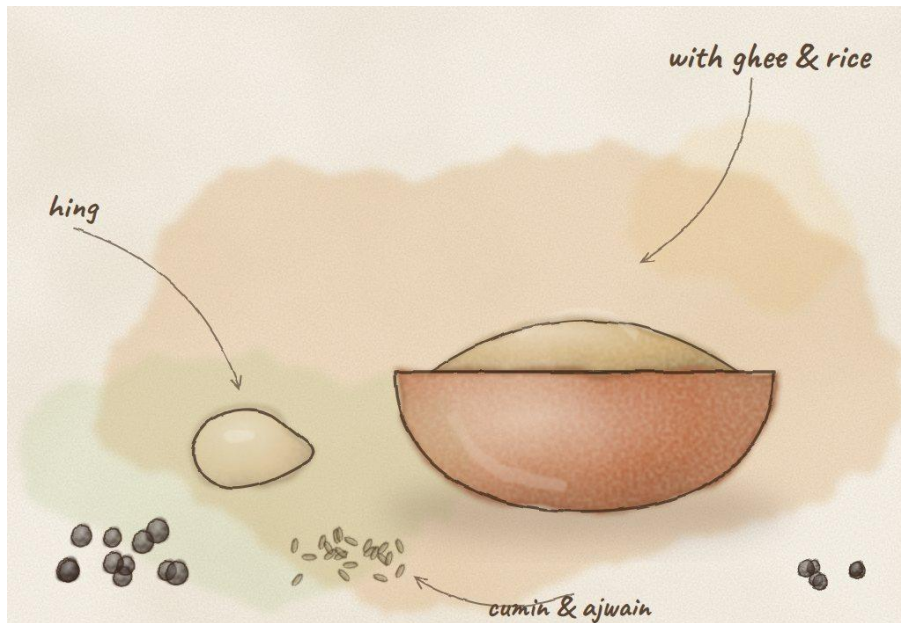

- ~ Diabetes (contains sugar) — choose a sugar-free version
- ~ Diarrhoea
- ~ Pregnancy without medical advice

Vaidya's note ~ Trivrit in this formula is a mild purgative, so it both cools acidity and clears the bowels.

03 Hingvashtak Churna

हिंवाष्टक चूर्ण

CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Eight ingredients: asafoetida (hing), dry ginger, black pepper, long pepper, ajwain, cumin, black cumin and rock salt.

Uses उपयोग

- 1 **Gas and bloating** · गैस और पेट फूलना
- 2 **Loss of appetite** · भूख न लगना
- 3 **Indigestion** · अपच
- 4 **Colicky pain** · पेट में मरोड़

How to take सेवन विधि

dose · **1–3 g**

when · With the first morsel of a meal

take with · Mixed with a little ghee and rice

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

~ Heartburn or burning in people prone to acidity

Avoid or take care if सावधानी

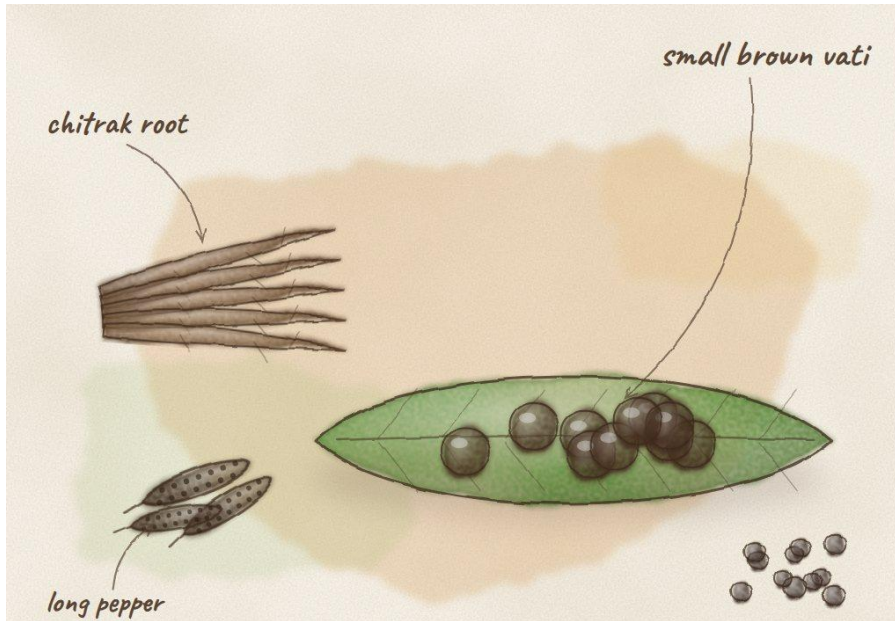

- ~ Stomach ulcers or severe acidity
- ~ High blood pressure (contains salt)
- ~ Pregnancy in large doses

Vaidya's note ~ The classic way is to mix it with ghee and eat it with the first bite of rice — the ghee carries the spices and protects the stomach lining.

04 Chitrakadi Vati

चित्रकादि वटी

VATI · वटी | TABLET OR PILL

made from ~ Chitrak root, Pippali root, Yavakshar, Sajjikshar, five salts, Trikatu, hing, Ajmoda and Chavya, processed in citron juice.

Uses उपयोग

- 1 Weak digestion · कमज़ोर पाचन
- 2 Poor appetite · भूख की कमी
- 3 Heaviness after meals · खाने के बाद भारीपन
- 4 Ama (toxins) · आम दोष

How to take सेवन विधि

dose · **1–2 tablets (250–500 mg)**

when · Before or with meals, twice daily

take with · Warm water or buttermilk

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Burning sensation or acidity
- ~ Increased thirst

Avoid or take care if सावधानी

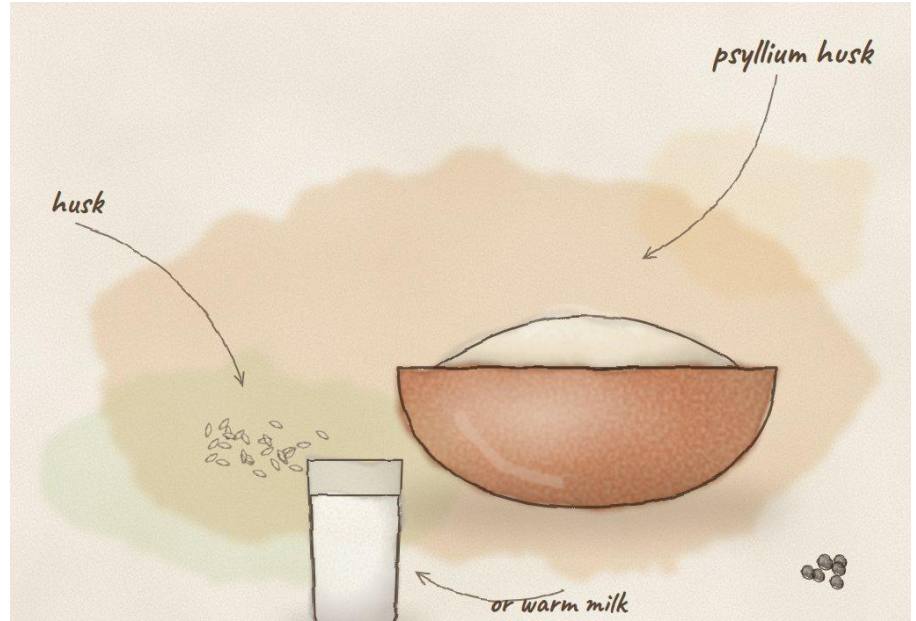

- ~ Ulcers, gastritis or bleeding disorders
- ~ Pregnancy
- ~ High blood pressure (contains salts)

Vaidya's note ~ This is a hot (ushna) formula. It suits cold, heavy, slow digestion — not burning or acidic complaints.

05 Isabgol (Psyllium Husk)

इसबगोल

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Husk of *Plantago ovata* seeds, a natural soluble fibre.

Uses उपयोग

- 1 Constipation · कब्ज
- 2 Irritable bowel (IBS) · आई.बी.एस.
- 3 Piles — softens stools · बवासीर में सहायक
- 4 Mild loose motions · हल्के दस्त

How to take सेवन विधि

dose · **5–10 g (1–2 teaspoons)**

when · At bedtime

take with · A full glass of water or warm milk

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Bloating or gas in the first few days
- ~ Choking risk if taken without enough water

Avoid or take care if सावधानी

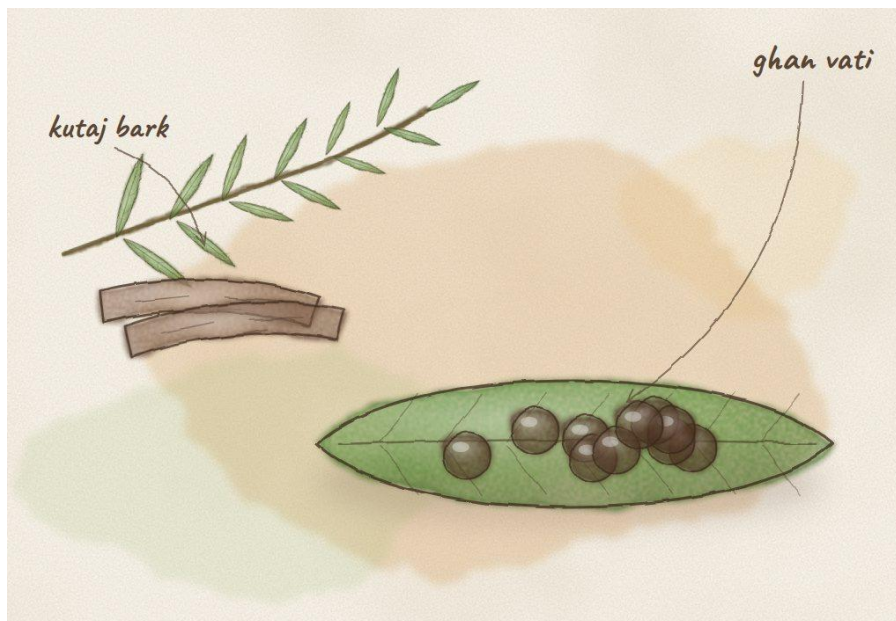

- ~ Bowel obstruction or difficulty swallowing
- ~ Taking it within 2 hours of other medicines

Vaidya's note ~ Drink it immediately after stirring, before it thickens. With curd, the same husk helps firm up loose stools.

06 Kutajghan Vati

कुटजघन वटी

VATI · वटी | TABLET OR PILL

made from ~ Concentrated extract of Kutaj bark (*Holarrhena antidysenterica*).

Uses उपयोग

- 1 Diarrhoea · दस्त
- 2 Dysentery · पेचिश
- 3 IBS with loose stools · आई.बी.एस. (दस्त प्रधान)
- 4 Bleeding piles · खूनी बवासीर

How to take सेवन विधि

dose · **1–2 tablets (250–500 mg)**

when · **2–3 times daily**

take with · **Water or buttermilk**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Constipation if continued after symptoms settle
- ~ Mild nausea

Avoid or take care if सावधानी

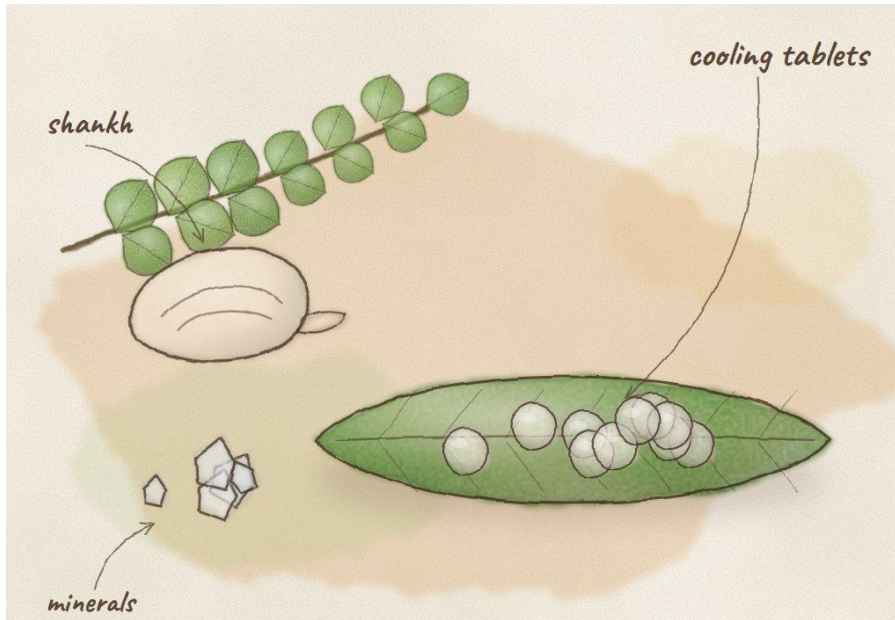

- ~ Constipation
- ~ Pregnancy without advice

Vaidya's note ~ Keep drinking fluids or ORS along with it — the medicine does not replace lost water and salts.

07 Kamdudha Ras

कामदुधा रस RASA AUSHADHI · रस औषधि | HERBO-MINERAL MEDICINE

UNDER MEDICAL SUPERVISION — contains minerals or potent herbs

made from ~ Processed calcium-rich minerals — Mukta shukti, Praval, Shankh, Kapardika — with Gairik and Giloy satva.

Uses उपयोग

- 1 **Acidity** · एसिडिटी
- 2 **Gastritis** · पेट में जलन
- 3 **Mouth ulcers from heat** · मुँह के छाले
- 4 **Excess body heat** · शरीर में गर्मी

How to take सेवन विधि

dose · **125–250 mg**

when · **Twice daily**

take with · **Water, milk or Amla juice**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Constipation
- ~ Dizziness or discomfort if overdosed

Avoid or take care if सावधानी

- ~ Self-medication for long periods
- ~ Kidney stones (high calcium) without advice

Vaidya's note ~ Two versions exist: plain and 'Mauktik yukt' (with pearl).

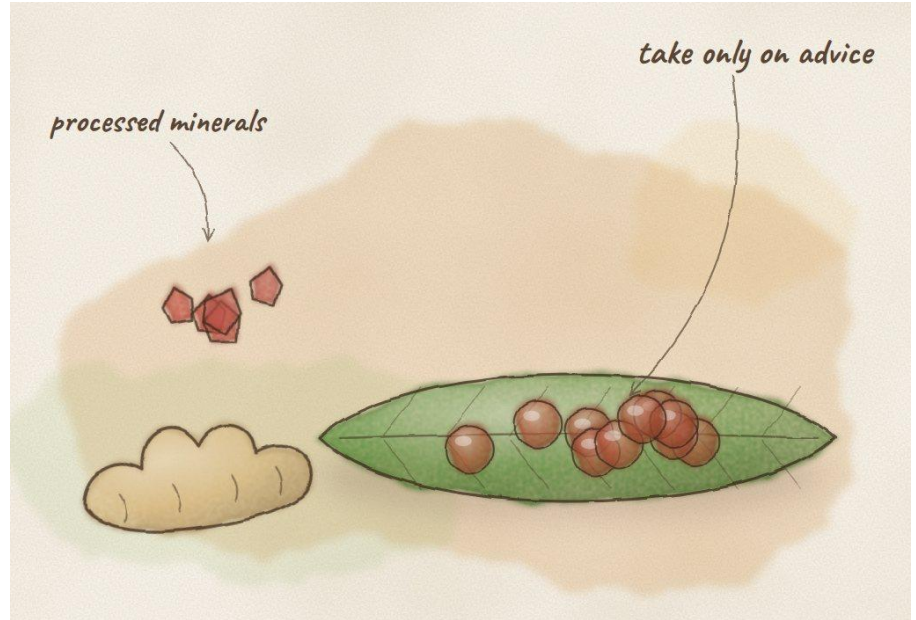

Both are cooling and should be used under guidance.

08 Sutshekhar Ras

सूतशेखर रस

RASA AUSHADHI · रस औषधि | HERBO-MINERAL MEDICINE

UNDER MEDICAL SUPERVISION — contains minerals or potent herbs

made from ~ Purified mercury (Parad), Swarna bhasma and other processed minerals with Trikatu, Dhatura and Bilva.

Uses उपयोग

- 1 **Severe acidity** · तीव्र एसिडिटी
- 2 **Vomiting and nausea** · उल्टी व जी मिचलाना
- 3 **Pitta-type headache** · पित्तज सिरदर्द
- 4 **Hiccups** · हिचकी

How to take सेवन विधि

dose · **125–250 mg**

when · **Twice daily**

take with · **Honey, ghee or as advised**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Metal toxicity if misused or taken long-term
- ~ Dry mouth (contains Dhatura)

Avoid or take care if सावधानी

- ~ Pregnancy and breastfeeding
- ~ Children
- ~ Kidney or liver disease
- ~ Any use without a qualified Vaidya

Vaidya's note ~ A powerful mineral medicine: always buy from a licensed manufacturer and take only for the period prescribed.

chapter two

Liver Care

यकृत (लिवर) स्वास्थ्य

The liver is the seat of Ranjaka Pitta, the fire that colours and purifies the blood. Bitter herbs are Ayurveda's favourite liver tonics: they cool excess Pitta, support bile flow and help the body clear what it does not need.

- 09 Arogyavardhini Vati
- 10 Bhumyamalaki
- 11 Kalmegh
- 12 Punarnavadi Mandur

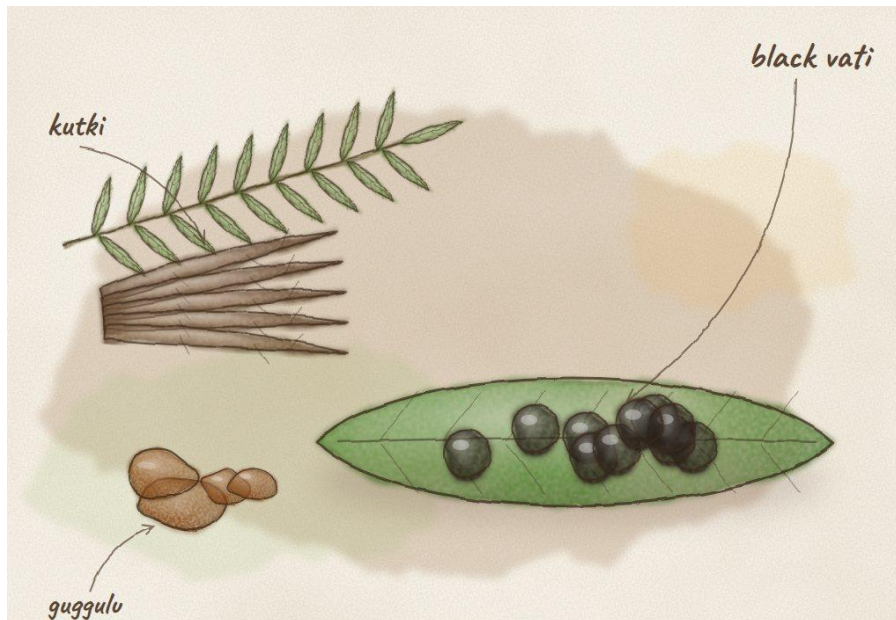

09 Arogyavardhini Vati

आरोग्यवर्धिनी वटी

RASA AUSHADHI · रस औषधि | HERBO-MINERAL MEDICINE

UNDER MEDICAL SUPERVISION — contains minerals or potent herbs

made from ~ Kutki (main herb), Shilajit, Guggulu, Chitrak, Triphala and processed copper, iron, mica and mercury, in Neem leaf juice.

Uses उपयोग

- 1 Fatty liver · फैटी लिवर
- 2 Sluggish liver function · लिवर की कमज़ोरी
- 3 Chronic skin problems · पुराने त्वचा रोग
- 4 Indigestion · अपच

How to take सेवन विधि

dose · **250–500 mg (1–2 tablets)**

when · Twice daily after meals

take with · Warm water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Loose stools (Kutki is laxative)
- ~ Metal accumulation with long, unsupervised use

Avoid or take care if सावधानी

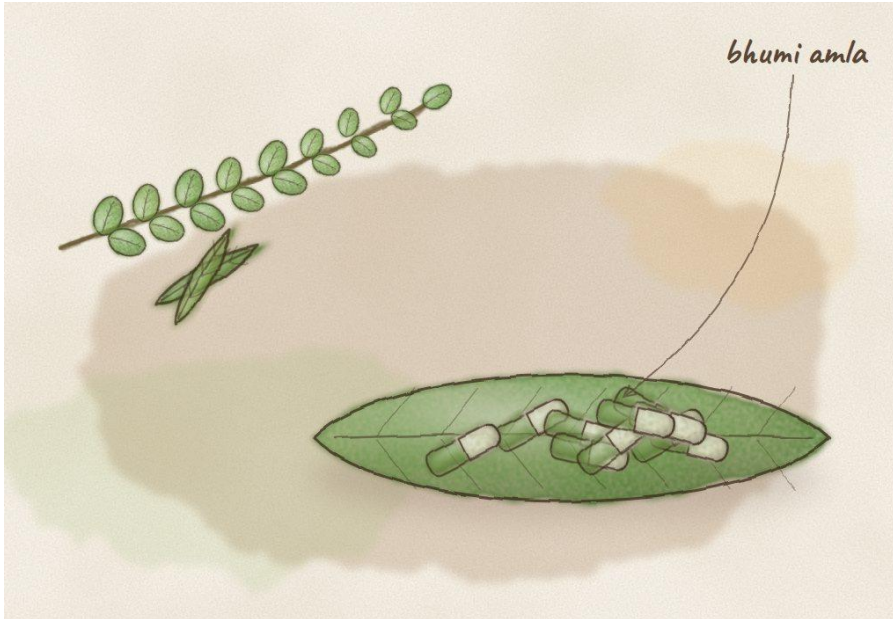

- ~ Pregnancy and breastfeeding
- ~ Kidney disease
- ~ Use beyond the prescribed duration

Vaidya's note ~ Its name means 'one that increases health'. Doctors usually prescribe it in short courses with periodic liver tests.

10 Bhumyamalaki

भूम्यामलकी (भूमि आंवला)

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Whole plant of *Phyllanthus niruri*.

Uses उपयोग

- 1 **Liver support** · लिवर सुरक्षा
- 2 **Jaundice — supportive care** · पीलिया में सहायक
- 3 **Digestive weakness** · पाचन दुर्बलता
- 4 **Urinary burning** · पेशाब में जलन

How to take सेवन विधि

dose · **3–6 g powder or 1–2 capsules**

when · **Twice daily**

take with · **Water or buttermilk**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ May lower blood sugar
- ~ Mild stomach upset

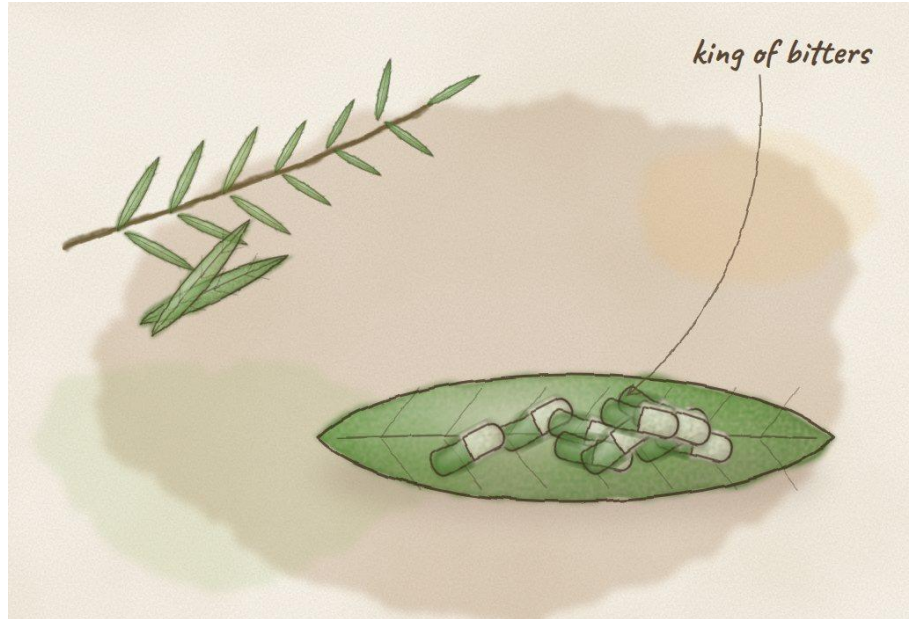

Avoid or take care if सावधानी

- ~ Pregnancy
- ~ Diabetes medication (monitor sugar)
- ~ Before surgery

Vaidya's note ~ Jaundice always needs a doctor's diagnosis first — the herb supports care, it is not a substitute for it.

11 Kalmegh

कालमेघ SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Leaves and aerial parts of Andrographis paniculata, known as the 'king of bitters'.

Uses उपयोग

- 1 **Liver protection** · लिवर सुरक्षा
- 2 **Fever** · बुखार
- 3 **Loss of appetite** · भूख न लगना
- 4 **Seasonal infections** · मौसमी संक्रमण

How to take सेवन विधि

dose · **1–3 g powder or 1–2 capsules**

when · **Twice daily after meals**

take with · **Water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Intense bitterness may cause nausea
- ~ Rarely, allergic reactions

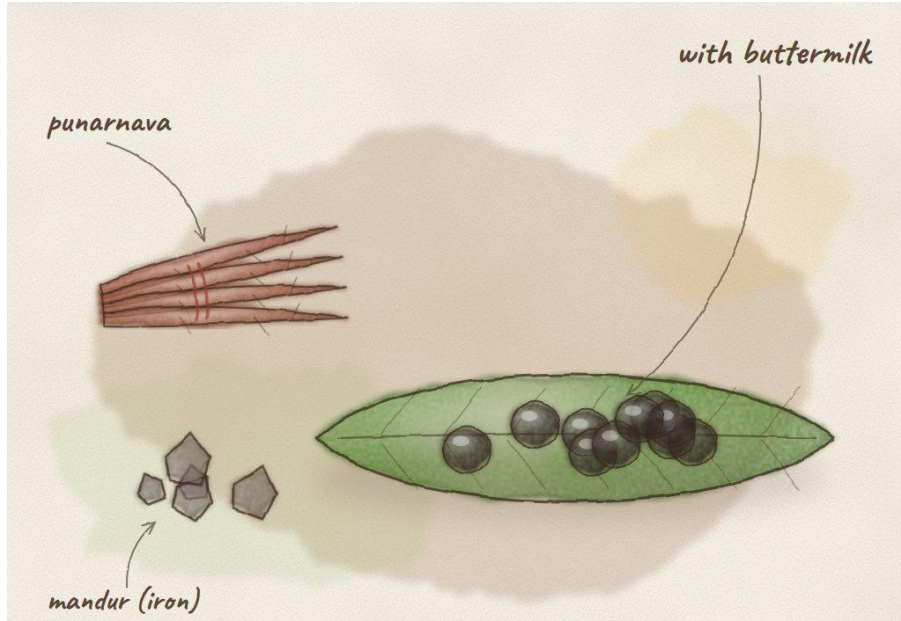

Avoid or take care if सावधानी

- ~ Pregnancy and those trying to conceive
- ~ Low blood pressure
- ~ Blood-thinning medicines

Vaidya's note ~ Often given to children in tiny doses as a syrup for poor appetite — but only under paediatric advice.

12 Punarnavadi Mandur

पुनर्नवादि मंडूर VATI · वटी | TABLET OR PILL

made from ~ Mandur bhasma (processed iron oxide) with Punarnava, Trikatu, Triphala, Chitrak and other herbs, prepared in cow's urine.

Uses उपयोग

- 1 Anaemia · खून की कमी
- 2 Swelling / oedema · सूजन
- 3 Enlarged liver or spleen · बढ़ा हुआ लिवर/तिल्ली
- 4 Weakness · कमजोरी

How to take सेवन विधि

dose · **250–500 mg (1–2 tablets)**

when · Twice daily after meals

take with · Buttermilk (classical) or water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Constipation
- ~ Dark stools (normal with iron)
- ~ Stomach upset

Avoid or take care if सावधानी

- ~ Iron overload conditions
- ~ Peptic ulcer
- ~ Pregnancy without advice

Vaidya's note ~ Taking it with buttermilk is the traditional anupan and helps absorption while reducing stomach upset.

chapter three

Respiratory Care

श्वसन तंत्र

Coughs, colds and congestion are usually Kapha conditions: heavy, sticky and cold. Ayurvedic respiratory formulas use warming spices like long pepper, ginger and clove to loosen mucus, soothe the throat and open the airways.

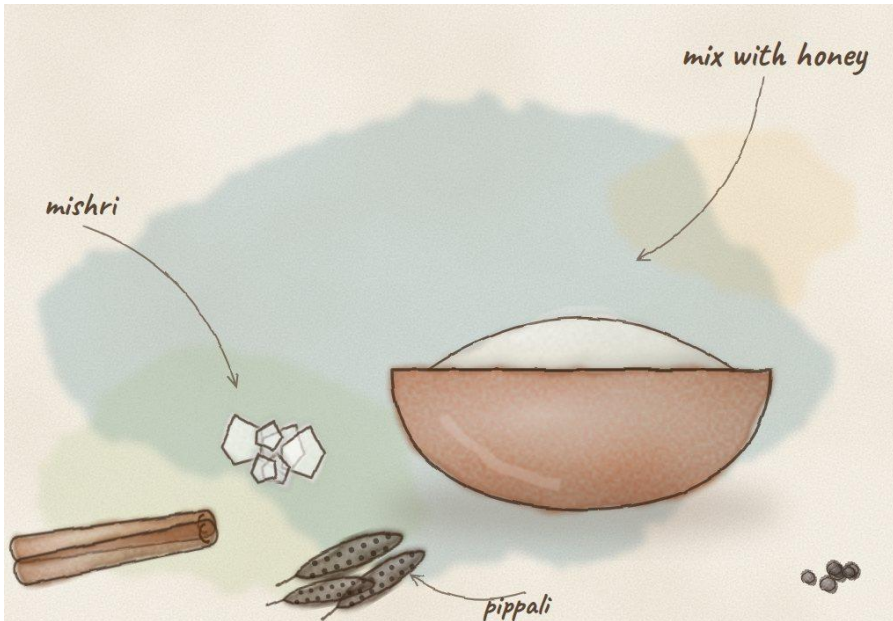

- 13 Sitopaladi Churna
- 14 Talisadi Churna
- 15 Vasavaleha
- 16 Lavangadi Vati
- 17 Kanakasava

13 Sitopaladi Churna

सितोपलादि चूर्ण

CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Rock sugar (Mishri), Vanshlochan (bamboo silica), Pippali, cardamom and cinnamon.

Uses उपयोग

- 1 Dry or productive cough · सूखी व बलगम वाली खांसी
- 2 Common cold · जुकाम
- 3 Sore throat · गले में खराश
- 4 Low-grade fever with cold · सर्दी के साथ हल्का बुखार

How to take सेवन विधि

dose · **3–6 g**

when · 2–3 times daily

take with · Honey (or honey with ghee)

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

~ Raises blood sugar — high sugar content

Avoid or take care if सावधानी

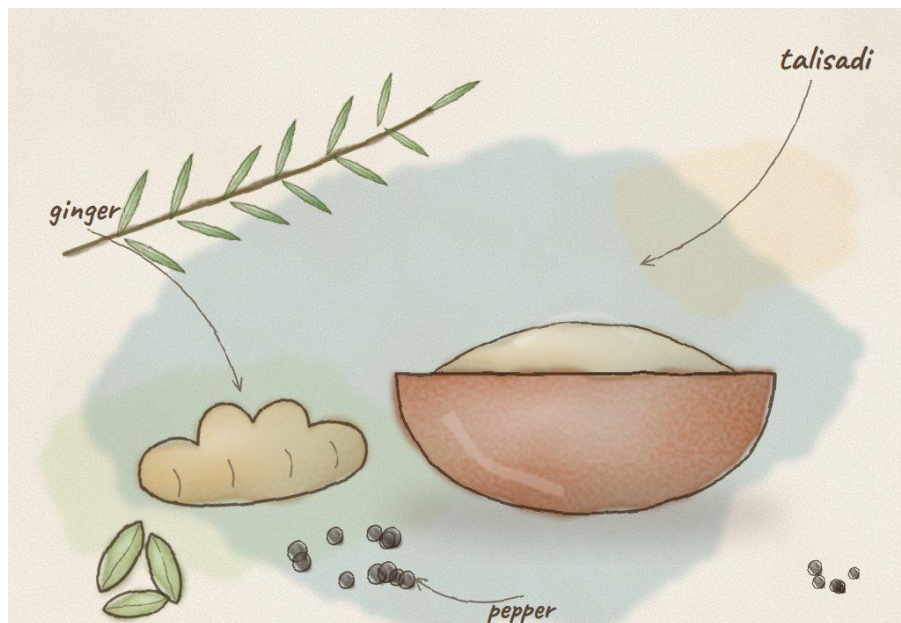

- ~ Uncontrolled diabetes
- ~ Children under 1 year (honey)

Vaidya's note ~ One of the gentlest cough formulas, widely used for children in smaller doses — mixed with honey into a lickable paste.

14 Talisadi Churna

तालीसादि चूर्ण

CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Talispatra, dry ginger, black pepper, Pippali, cardamom, cinnamon, Vanshlochan and sugar.

Uses उपयोग

- 1 Cough with congestion · कफ वाली खांसी
- 2 Breathlessness from mucus · कफ से सांस फूलना
- 3 Loss of taste and appetite · अरुचि
- 4 Indigestion with cold · सर्दी के साथ अपच

How to take सेवन विधि

dose · **3–5 g**

when · **2–3 times daily**

take with · **Honey or warm water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Mild heartburn (warming spices)
- ~ Raises blood sugar

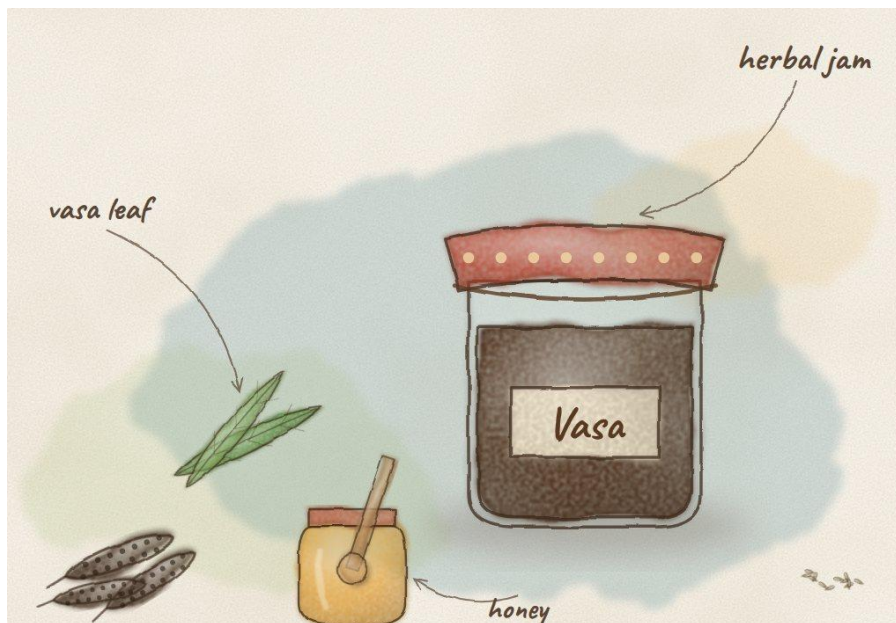

Avoid or take care if सावधानी

- ~ Diabetes
- ~ Severe acidity

Vaidya's note ~ Warmer than Sitopaladi — better for heavy chest congestion than for dry, irritating cough.

15 Vasavaleha

वासावलेह AVALEHA · अवलेह | HERBAL JAM

made from ~ Vasa (Adulsa) leaf juice cooked with sugar, Pippali, ghee and honey into a jam.

Uses उपयोग

- 1 Chronic cough · पुरानी खांसी
- 2 Bronchitis · ब्रोंकाइटिस
- 3 Asthma — supportive · दमा में सहायक
- 4 Blood in sputum (with care) · बलगम में खून

How to take सेवन विधि

dose · **5–10 g (1–2 teaspoons)**

when · **Twice daily**

take with · **Warm water or milk**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Nausea in large doses
- ~ Raises blood sugar

Avoid or take care if सावधानी

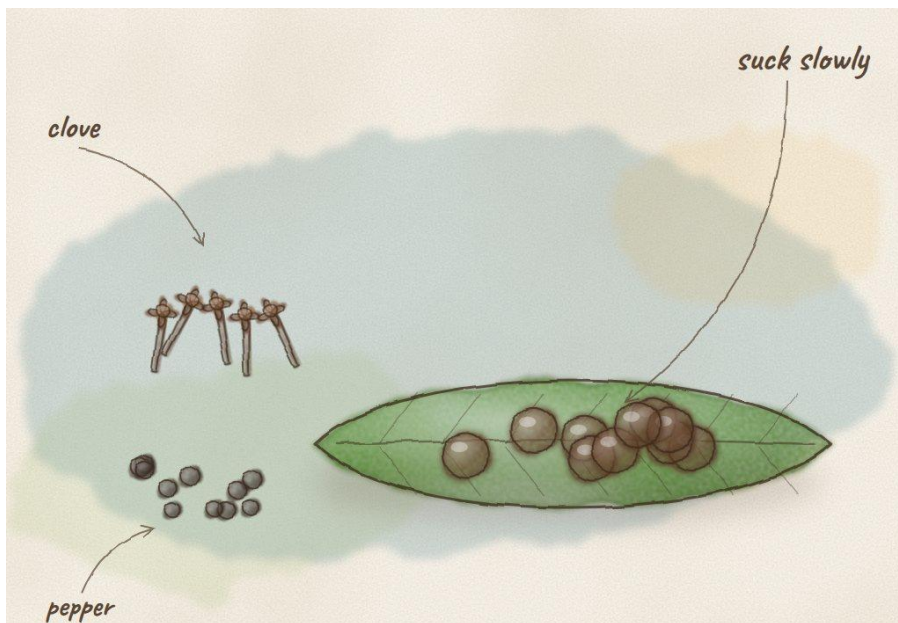

- ~ Pregnancy (Vasa can stimulate the uterus)
- ~ Diabetes

Vaidya's note ~ Any blood in the sputum must be checked by a doctor first to rule out TB or other serious causes.

16 Lavangadi Vati

लवंगादि वटी

VATI · वटी | TABLET OR PILL

made from ~ Clove, black pepper, Bibhitaki, Khadir (catechu) and gum acacia.

Uses उपयोग

- 1 Sore throat · गले में खराश
- 2 Tickly cough · खांसी
- 3 Hoarse voice · आवाज़ बैठना
- 4 Bad breath · मुँह की दुर्गंध

How to take सेवन विधि

dose · **1–2 tablets**

when · **3–4 times daily**

take with · **Suck slowly in the mouth**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

~ Mild mouth irritation in some people

Avoid or take care if सावधानी

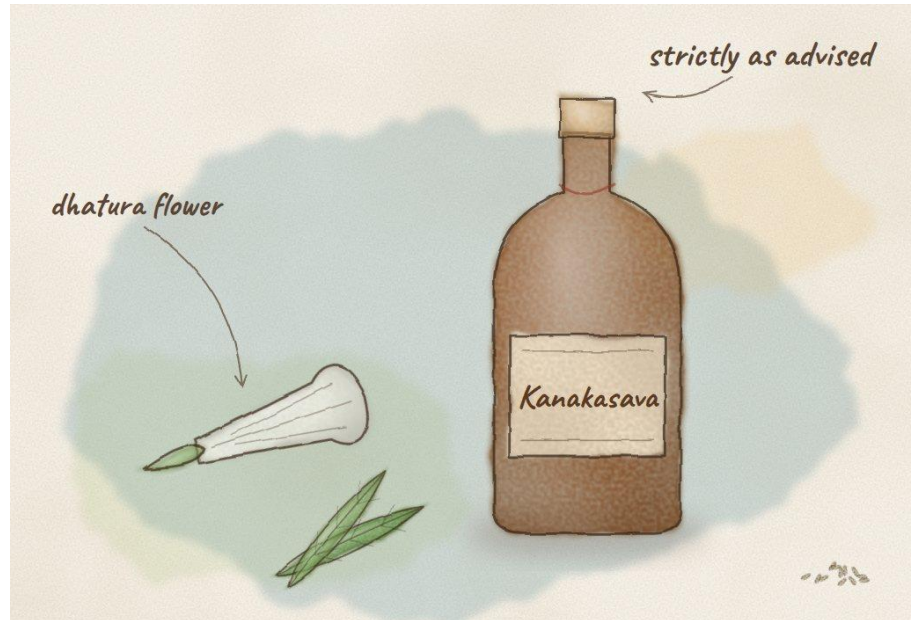

~ Mouth ulcers that are raw and bleeding

Vaidya's note ~ Works like a herbal lozenge — let it dissolve slowly rather than swallowing it.

17 Kanakasava

कनकासव ASAVA / ARISHTA · आसव / अरिष्ट | NATURALLY FERMENTED LIQUID

UNDER MEDICAL SUPERVISION — contains minerals or potent herbs

made from ~ Fermented preparation of Datura (Kanak), Vasa, liquorice, Pippali, Kantakari, ginger and other herbs.

Uses उपयोग

- 1 **Bronchial asthma** · दमा
- 2 **Chronic cough** · पुरानी खांसी
- 3 **Wheezing** · घरघराहट
- 4 **Breathlessness** · सांस फूलना

How to take सेवन विधि

dose · **15–20 ml**

when · **Twice daily after meals**

take with · **Mixed with an equal amount of water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Dry mouth, blurred vision, fast heartbeat (Datura)
- ~ Drowsiness

Avoid or take care if सावधानी

- ~ Glaucoma
- ~ Enlarged prostate or urinary retention
- ~ Pregnancy, children
- ~ Alcohol-sensitive persons (naturally fermented)

Vaidya's note ~ Datura is a potent plant — never exceed the dose, and never use it as a replacement for an asthma inhaler during an attack.

chapter four

Fever & Immunity

ज्वर एवं रोग प्रतिरोधक क्षमता

Ayurveda calls immunity 'Vyadhikshamatva' — the body's power to resist disease. It is built slowly through good digestion, rest and Rasayana (rejuvenating) herbs, and defended during fevers with bitter, cleansing formulas.

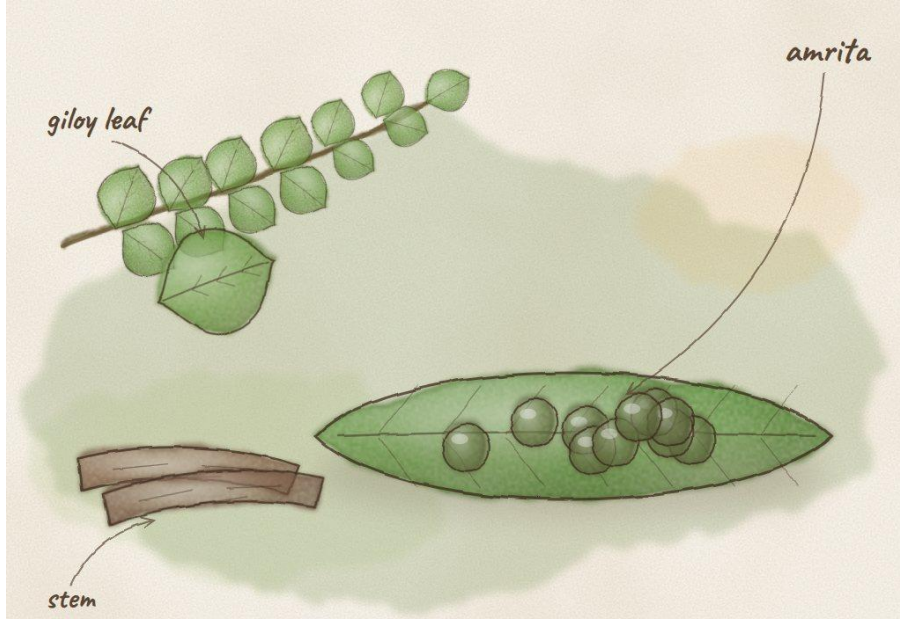

- 18 Giloy Ghan Vati
- 19 Mahasudarshan Churna
- 20 Tribhuvan Kirti Ras
- 21 Chyawanprash
- 22 Tulsi (Holy Basil)

18 Giloy Ghan Vati

गिलोय घन वटी

VATI · वटी | TABLET OR PILL

made from ~ Concentrated extract of Guduchi (*Tinospora cordifolia*) stem.

Uses उपयोग

- 1 Recurrent fevers · बार-बार बुखार
- 2 Immunity support · रोग प्रतिरोधक क्षमता
- 3 Gout and joint heat · गठिया
- 4 Skin allergies · त्वचा की एलर्जी

How to take सेवन विधि

dose · **1–2 tablets (500 mg)**

when · Twice daily after meals

take with · Water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ May lower blood sugar
- ~ Constipation in some people

Avoid or take care if सावधानी

- ~ Autoimmune diseases without advice
- ~ Pregnancy
- ~ Diabetes medication (monitor sugar)

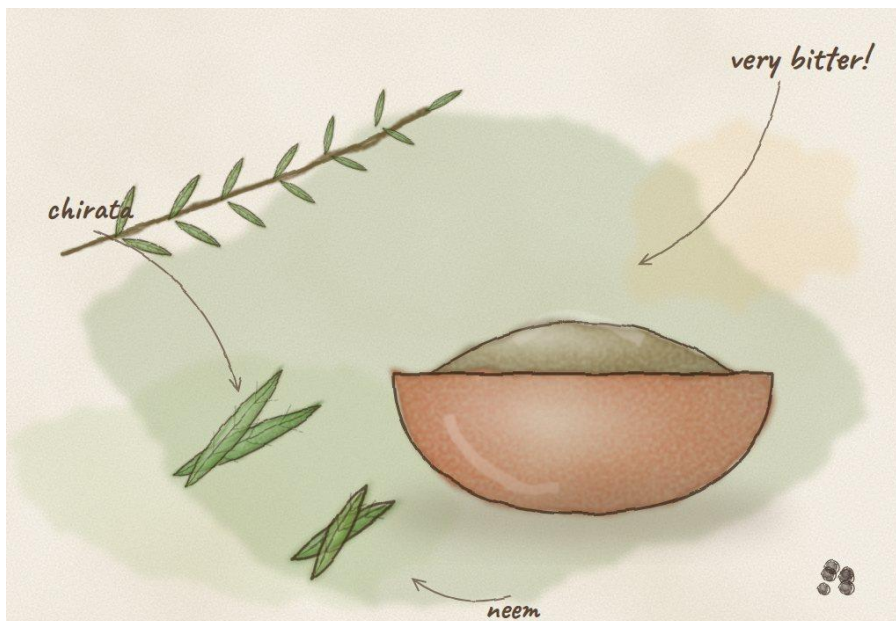

Vaidya's note ~ Its Sanskrit name 'Amrita' means nectar of immortality.

Avoid very long, unsupervised use; rare liver reactions have been reported.

19 Mahasudarshan Churna

महासुदर्शन चूर्ण

CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Around 50 herbs led by Chirayata (Swertia chirata), with Kutki, Giloy, Neem, Triphala, Trikatu and others.

Uses उपयोग

- 1 All types of fever · सभी प्रकार के बुखार
- 2 Weakness after fever · बुखार के बाद कमज़ोरी
- 3 Loss of appetite · भूख न लगना
- 4 Body ache · शरीर में दर्द

How to take सेवन विधि

dose · **2–4 g, or 1–2 Ghan Vati tablets**

when · **Twice daily**

take with · **Warm water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Strong bitterness may cause nausea
- ~ Can lower blood sugar

Avoid or take care if सावधानी

- ~ Pregnancy
- ~ Diabetes medication (monitor sugar)

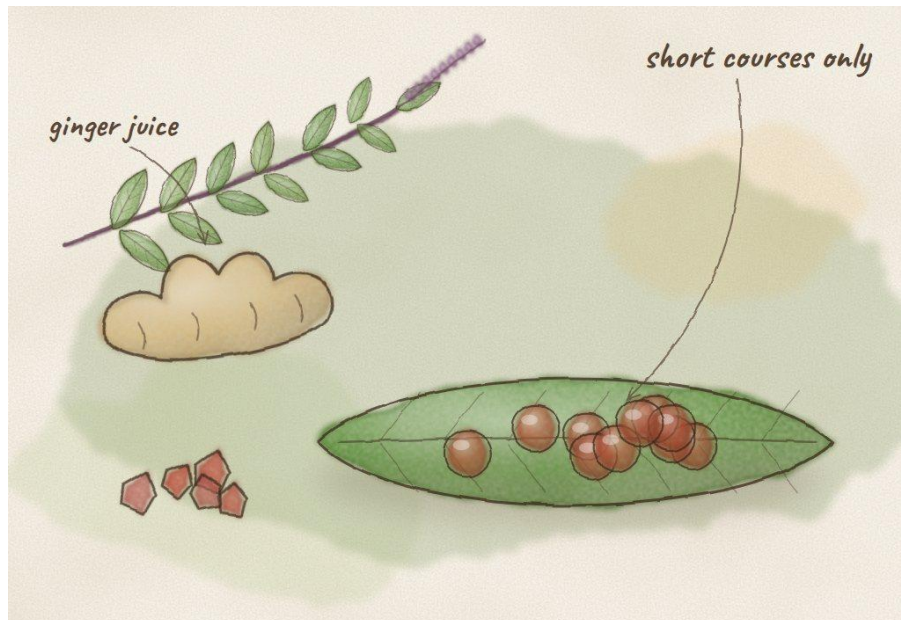

Vaidya's note ~ Too bitter to enjoy as powder? The tablet (Ghan Vati) form contains the same formula.

20 Tribhuvan Kirti Ras

त्रिभुवन कीर्ति रस

RASA AUSHADHI · रस औषधि | HERBO-MINERAL MEDICINE

UNDER MEDICAL SUPERVISION — contains minerals or potent herbs

made from ~ Shuddha Hingul (mercury sulphide), Shuddha Vatsanabh (aconite), Trikatu, Tankan and Pippalimool, in Tulsi, ginger and Dhatura juices.

Uses उपयोग

- 1 **Fever with cold and cough** · सर्दी-खांसी के साथ बुखार
- 2 **Body ache in flu** · फ्लू में बदन दर्द
- 3 **Headache from cold** · सर्दी से सिरदर्द
- 4 **Sweating to break fever** · पसीना लाकर ज्वर उतारना

How to take सेवन विधि

dose · **125–250 mg**

when · **2–3 times daily for a few days**

take with · **Ginger juice with honey, or Tulsi juice**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Excessive sweating
- ~ Aconite toxicity if overdosed: tingling, palpitations

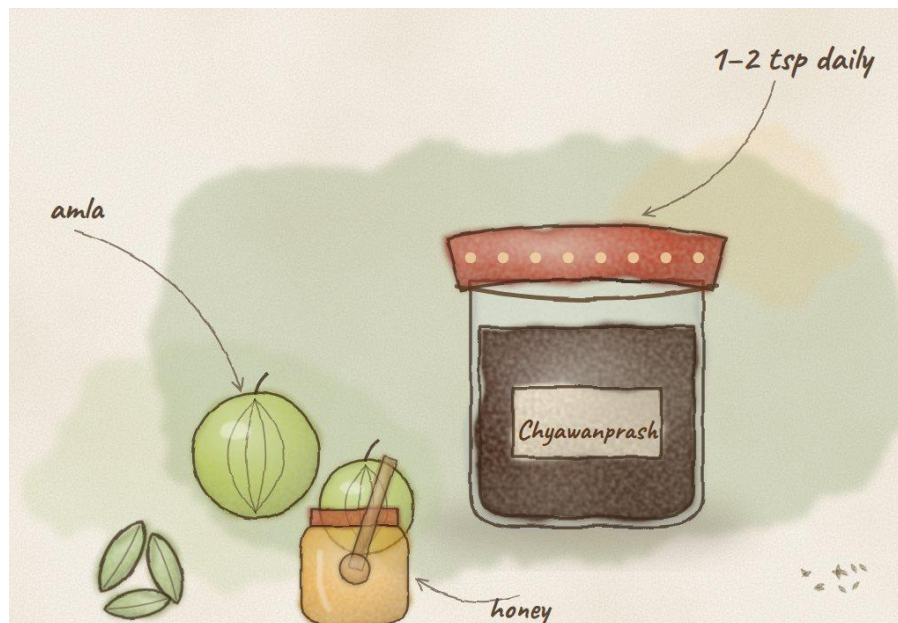

Avoid or take care if सावधानी

- ~ Heart disease
- ~ Pregnancy and children
- ~ Any use without a qualified Vaidya

Vaidya's note ~ Contains aconite, one of the most potent plants in the Ayurvedic pharmacy. Only short courses, only on prescription.

21 Chyawanprash

च्यवनप्राश AVALEHA · अवलेह | HERBAL JAM

made from ~ Amla pulp as the base with 40+ herbs including Ashwagandha, Shatavari, Pippali and Dashmool, cooked in ghee, sesame oil, sugar and honey.

Uses उपयोग

- 1 General immunity · सामान्य रोग प्रतिरोधक क्षमता
- 2 Frequent colds · बार-बार जुकाम
- 3 Strength and stamina · ताकत व स्फूर्ति
- 4 Healthy ageing · स्वस्थ बुढ़ापा

How to take सेवन विधि

dose · **1–2 teaspoons (10–12 g)**

when · Once daily, morning

take with · Warm milk or water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Indigestion if taken in excess
- ~ Raises blood sugar

Avoid or take care if सावधानी

- ~ Diabetes (choose sugar-free)
- ~ Acute fever or indigestion — pause until it settles

Vaidya's note ~ Named after the sage Chyavana, for whom it was first prepared according to legend. Children can take half a teaspoon.

22 Tulsi (Holy Basil)

तुलसी

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Leaves of *Ocimum sanctum* (Rama and Krishna varieties).

Uses उपयोग

- 1 Cold and cough · सर्दी-खांसी
- 2 Seasonal immunity · मौसमी रोग प्रतिरोधक क्षमता
- 3 Stress · तनाव
- 4 Mild fever · हल्का बुखार

How to take सेवन विधि

dose · **1–3 g leaf powder, or 5–7 fresh leaves**

when · Once or twice daily

take with · Warm water, honey or as herbal tea

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ May lower blood sugar
- ~ May slow blood clotting

Avoid or take care if सावधानी

- ~ Pregnancy in medicinal doses
- ~ Before surgery
- ~ Blood-thinning medicines

Vaidya's note ~ A simple home tea: boil 5 leaves, a slice of ginger and 2 black peppercorns in a cup of water for 5 minutes.

chapter five

Mind, Memory & Sleep

मन, स्मृति एवं नींद

Medhya Rasayanas are herbs that nourish the mind. They are used to calm an overactive Vata, settle anxious thoughts, sharpen memory and restore natural sleep — gently, over weeks rather than days.

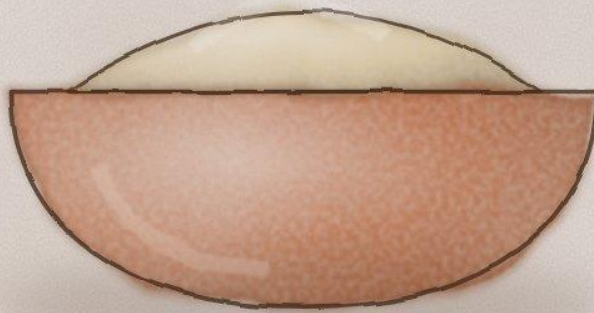

23 Ashwagandha Churna

24 Brahmi

25 Shankhpushpi Syrup

26 Saraswatarishta

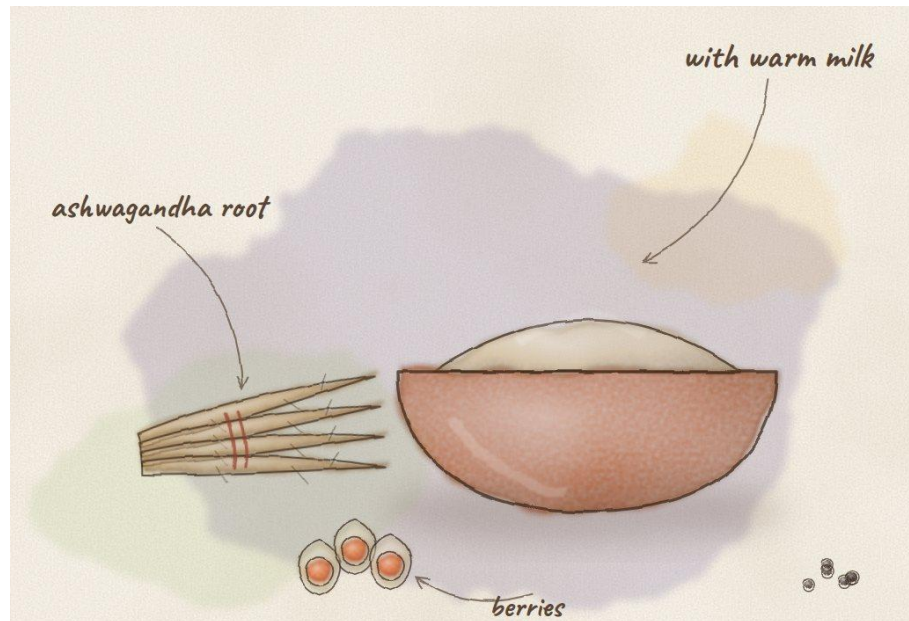

27 Jatamansi

23 Ashwagandha Churna

अश्वगंधा चूर्ण

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Root powder of *Withania somnifera*.

Uses उपयोग

- 1 Stress and anxiety · तनाव और चिंता
- 2 Poor sleep · अनिद्रा
- 3 Weakness and fatigue · कमज़ोरी व थकान
- 4 Muscle strength · मांसपेशियों की ताकत

How to take सेवन विधि

dose · **3–5 g**

when · At night

take with · Warm milk

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Drowsiness
- ~ Stomach upset or loose stools
- ~ Rare liver reactions

Avoid or take care if सावधानी

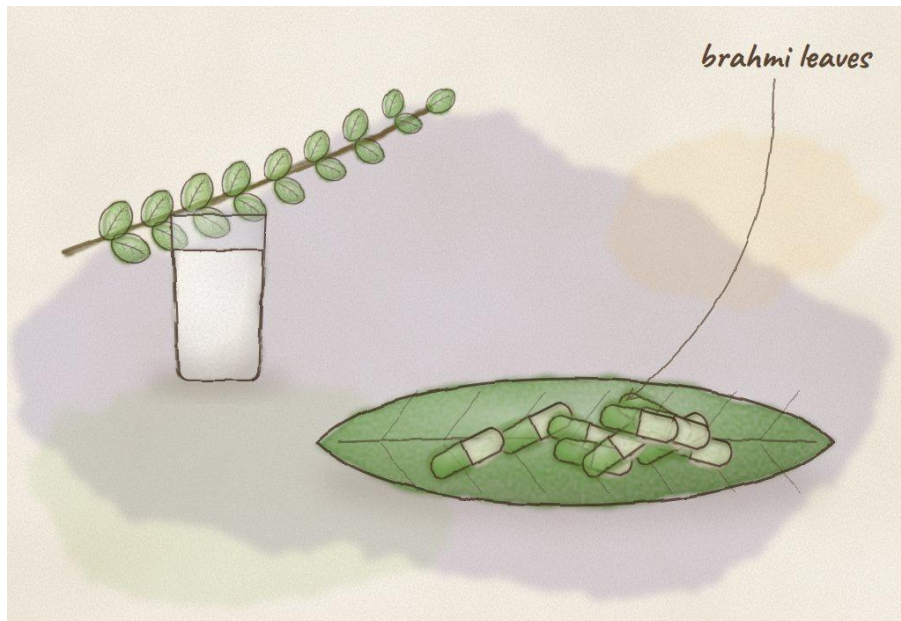

- ~ Pregnancy
- ~ Hyperthyroidism or thyroid medication
- ~ Sedatives or before surgery

Vaidya's note ~ Boiling the powder in milk with a pinch of nutmeg makes a classic bedtime drink for restful sleep.

24 Brahmi

ब्राह्मी

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Whole plant of *Bacopa monnieri*.

Uses उपयोग

- 1 **Memory and focus** · याददाश्त व एकाग्रता
- 2 **Exam stress** · परीक्षा का तनाव
- 3 **Anxiety** · घबराहट
- 4 **Mental fatigue** · मानसिक थकान

How to take सेवन विधि

dose · **1–3 g powder, or
250–500 mg tablet**

when · **Twice daily after meals**

take with · **Water, milk or ghee**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Nausea or loose stools
- ~ Tiredness in some people

Avoid or take care if सावधानी

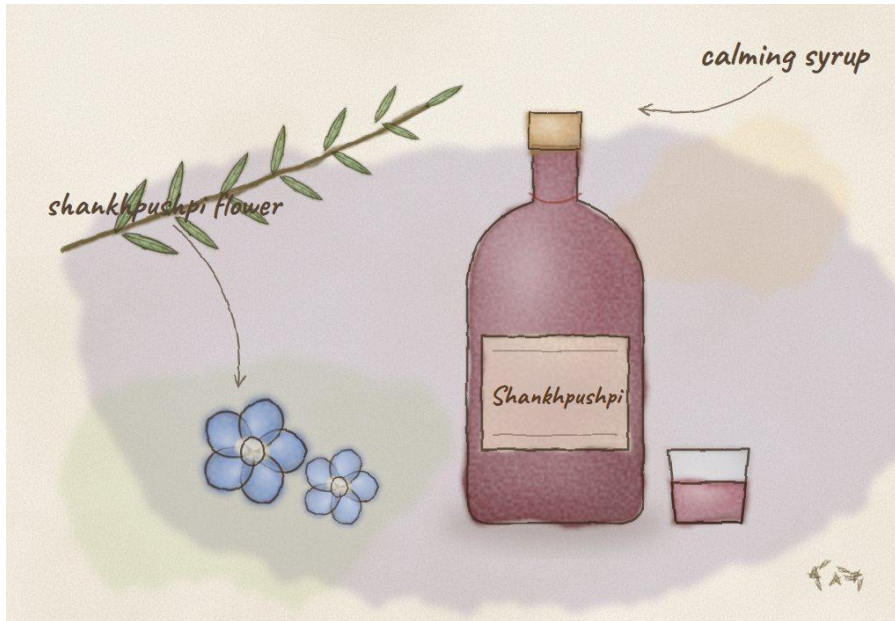

- ~ Slow heart rate
- ~ Thyroid medication without advice
- ~ Pregnancy

Vaidya's note ~ Benefits for memory build up slowly — most studies look at 8–12 weeks of regular use.

25 Shankpushpi Syrup

शंखपुष्पी शरबत

SYRUP · शरबत | SWEETENED HERBAL LIQUID

made from ~ Shankpushpi (*Convolvulus pluricaulis*) as the main herb, often with Brahmi and other Medhya herbs.

Uses उपयोग

- 1 **Memory** · याददाश्त
- 2 **Restlessness** · बेचैनी
- 3 **Sleep difficulty** · नींद न आना
- 4 **Mental calm** · मानसिक शांति

How to take सेवन विधि

dose · **10–20 ml (adults); 5 ml (children)**

when · **Twice daily**

take with · **Water or milk**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Drowsiness
- ~ May lower blood pressure

Avoid or take care if सावधानी

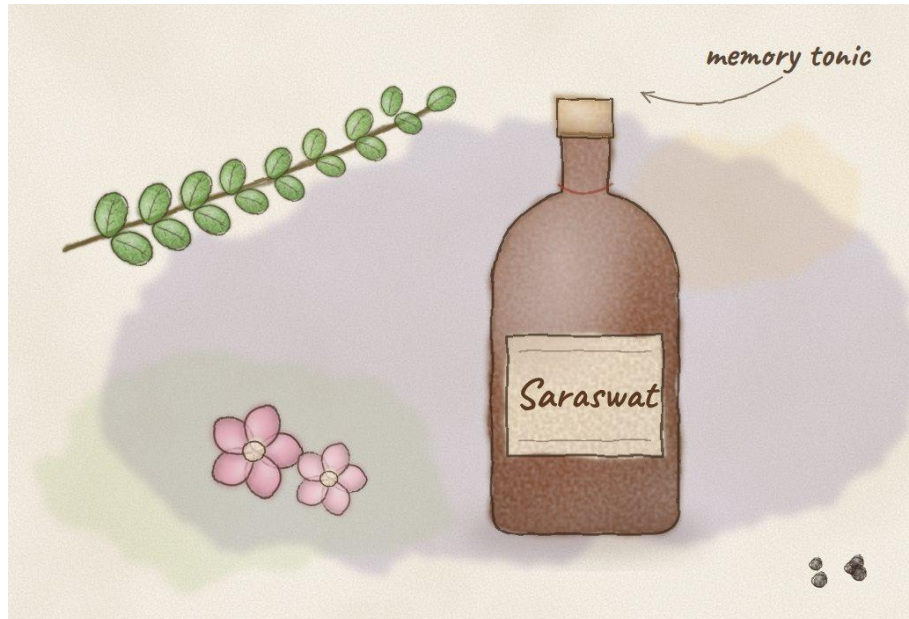

- ~ Low blood pressure
- ~ Sedatives
- ~ Diabetes (sweetened syrup)

Vaidya's note ~ Named after its conch-shaped (shankh) flowers.

26 Saraswatarishta

सारस्वतारिष्ट

ASAVA / ARISHTA · आसव / अरिष्ट | NATURALLY FERMENTED LIQUID

made from ~ Fermented preparation of Brahmi with Shatavari, Vidari, Haritaki, Ushir, ginger and other herbs; some versions include gold leaf.

Uses उपयोग

- 1 **Memory and speech** · स्मृति व वाणी
- 2 **Anxiety** · चिंता
- 3 **Insomnia** · अनिद्रा
- 4 **Nervous exhaustion** · तंत्रिका की थकान

How to take सेवन विधि

dose · **15–20 ml**

when · **Twice daily after meals**

take with · **Mixed with an equal amount of water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Mild acidity
- ~ Contains self-generated alcohol

Avoid or take care if सावधानी

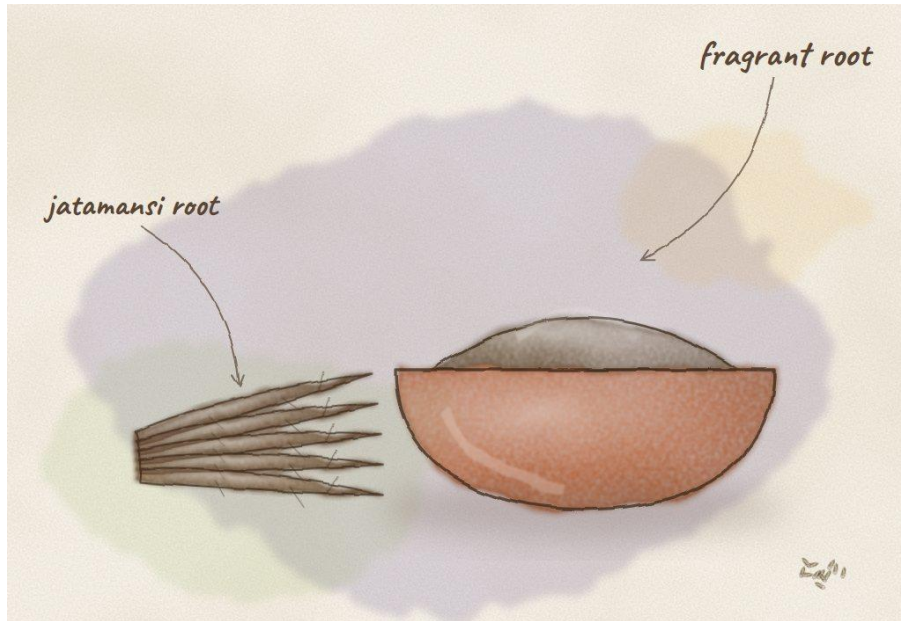

- ~ Alcohol-sensitive persons or liver disease
- ~ Pregnancy
- ~ Diabetes

Vaidya's note ~ Traditionally given to improve clarity of speech — hence the name of Saraswati, goddess of learning.

27 Jatamansi

जटामांसी

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Rhizome of *Nardostachys jatamansi*, an aromatic Himalayan herb.

Uses उपयोग

- 1 **Insomnia** · अनिद्रा
- 2 **Anxiety and restlessness** · चिंता व बेचैनी
- 3 **Tension headache** · तनाव से सिरदर्द
- 4 **Hair health (topical oil)** · बालों का स्वास्थ्य

How to take सेवन विधि

dose · **1–2 g**

when · **At night**

take with · **Warm water or milk**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Drowsiness
- ~ Nausea in high doses

Avoid or take care if सावधानी

- ~ Sedative or sleep medicines
- ~ Pregnancy

Vaidya's note ~ It is a protected Himalayan species — buy only from reputable, legally sourced brands.

chapter six

Joints & Muscles

जोड़ एवं मांसपेशियाँ

Pain, stiffness and cracking joints are signs of aggravated Vata, often tangled up with Ama in conditions like rheumatoid arthritis. Guggulu-based tablets are the backbone of treatment here, supported by warm oil massage.

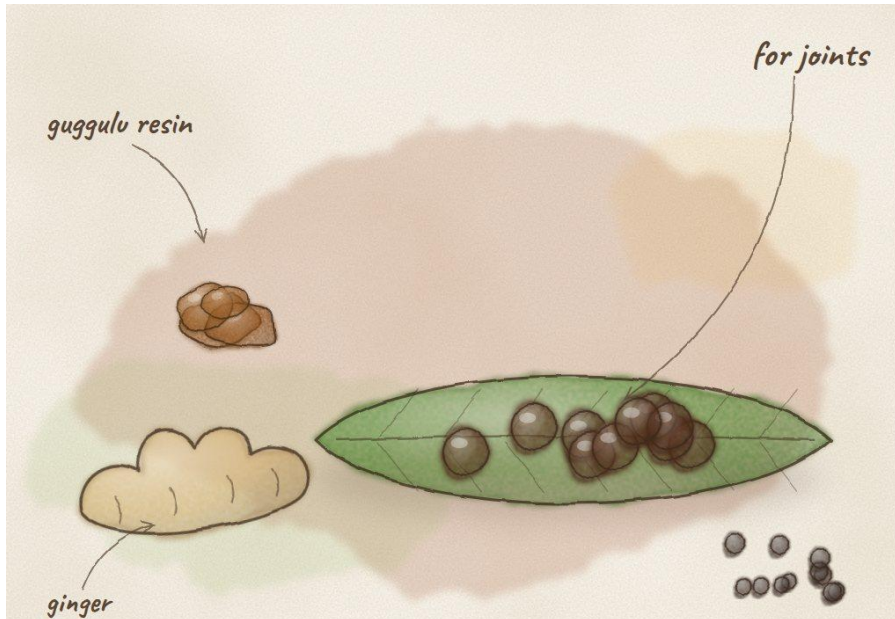

- 28 Yograj Guggulu
- 29 Simhanad Guggulu
- 30 Mahayograj Guggulu
- 31 Shallaki (Boswellia)
- 32 Mahanarayan Taila

28 Yograj Guggulu

योगराज गुग्गुलु

GUGGULU · गुग्गुलु | RESIN-BASED TABLET

made from ~ Purified Guggulu resin with Triphala, Chitrak, Pippali, ajwain, Vidanga, Rasna and other herbs.

Uses उपयोग

- 1 **Joint pain and stiffness** · जोड़ों का दर्द व अकड़न
- 2 **Osteoarthritis** · गठिया
- 3 **Back pain** · कमर दर्द
- 4 **Sluggish digestion** · धीमा पाचन

How to take सेवन विधि

dose · 1–2 tablets (250–500 mg each)

when · 2–3 times daily after meals

take with · Warm water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Acidity or heartburn
- ~ Skin rash in rare cases

Avoid or take care if सावधानी

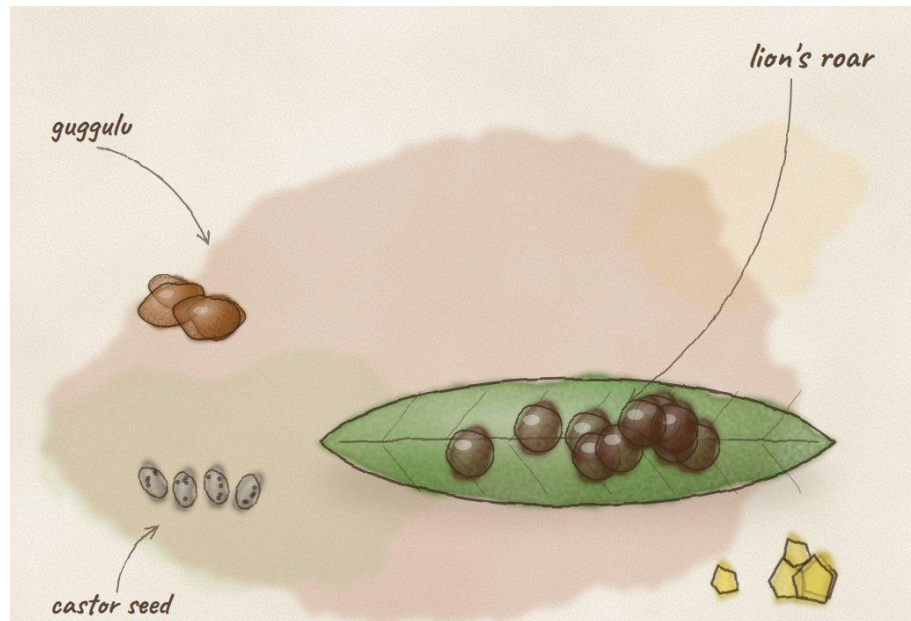

- ~ Pregnancy
- ~ Thyroid or blood-thinning medicines without advice
- ~ Severe acidity

Vaidya's note ~ Guggulu formulas work best when the diet is light — avoid cold, heavy and fried food during the course.

29 Simhanad Guggulu

सिंहनाद गुग्गुलु

GUGGULU · गुग्गुलु | RESIN-BASED TABLET

made from ~ Guggulu, Triphala, purified sulphur (Gandhak) and castor oil.

Uses उपयोग

- 1 Rheumatoid arthritis (Amavata) · आमवात
- 2 Morning stiffness · सुबह की अकड़न
- 3 Swollen joints · जोड़ों में सूजन
- 4 Constipation with joint pain · कब्ज के साथ जोड़ों का दर्द

How to take सेवन विधि

dose · **1–2 tablets**

when · **Twice daily after meals**

take with · **Warm water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Loose stools (castor oil)
- ~ Abdominal cramps

Avoid or take care if सावधानी

- ~ Diarrhoea
- ~ Pregnancy
- ~ Very weak persons

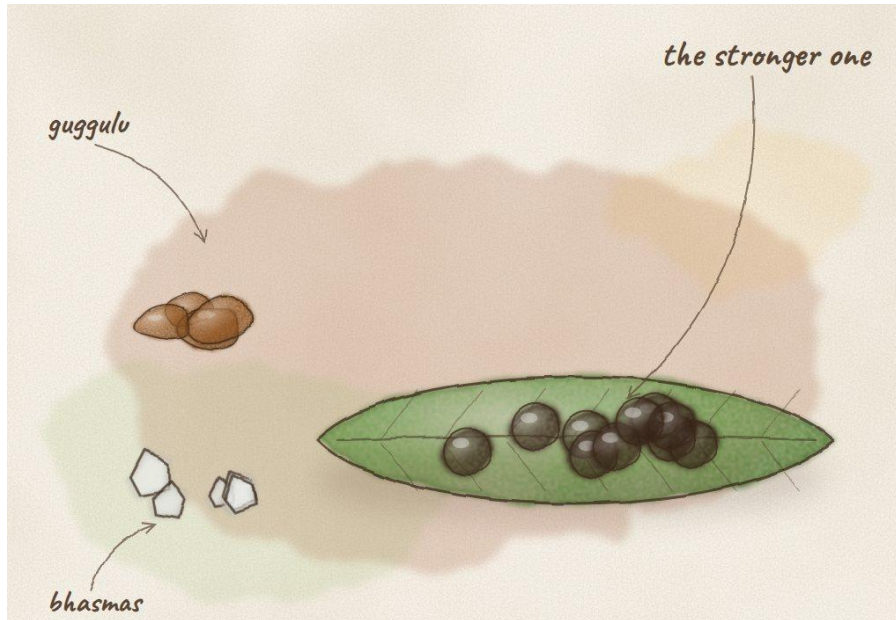

Vaidya's note ~ Its name means 'lion's roar' — said to chase away Amavata the way a roar scatters animals.

30 Mahayograj Guggulu

महायोगराज गुग्गुलु

GUGGULU · गुग्गुलु | RESIN-BASED TABLET

UNDER MEDICAL SUPERVISION — contains minerals or potent herbs

made from ~ The Yograj Guggulu formula strengthened with bhasmas of silver, iron, tin, lead, mica and Ras Sindoor.

Uses उपयोग

- 1 Chronic arthritis · पुराना गठिया
- 2 Gout · गाउट
- 3 Sciatica · साइटिका
- 4 Nerve weakness · नसों की कमज़ोरी

How to take सेवन विधि

dose · **1–2 tablets (250 mg)**

when · **Twice daily after meals**

take with · **Warm water or Rasnadi Kwath**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Heavy-metal accumulation with misuse
- ~ Acidity

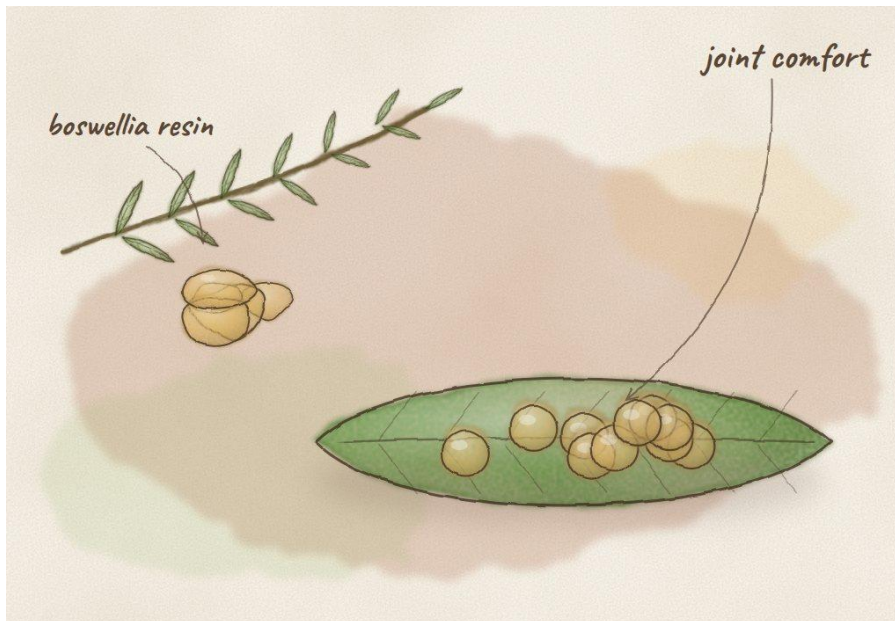

Avoid or take care if सावधानी

- ~ Pregnancy and children
- ~ Kidney disease
- ~ Self-medication

Vaidya's note ~ 'Maha' means great: this is the stronger, mineral-enriched version used only when plain Yograj is not enough.

31 Shallaki (Boswellia)

शल्लकी SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Gum resin of *Boswellia serrata*, usually as a standardised extract.

Uses उपयोग

- 1 **Osteoarthritis** · घुटनों का गठिया
- 2 **Joint inflammation** · जोड़ों की सूजन
- 3 **Mobility** · चलने-फिरने में सुविधा
- 4 **Muscle pain** · मांसपेशियों का दर्द

How to take सेवन विधि

dose · **300–500 mg extract, or 1–2 tablets**

when · **2–3 times daily after meals**

take with · **Water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Acidity, nausea
- ~ Mild diarrhoea

Avoid or take care if सावधानी

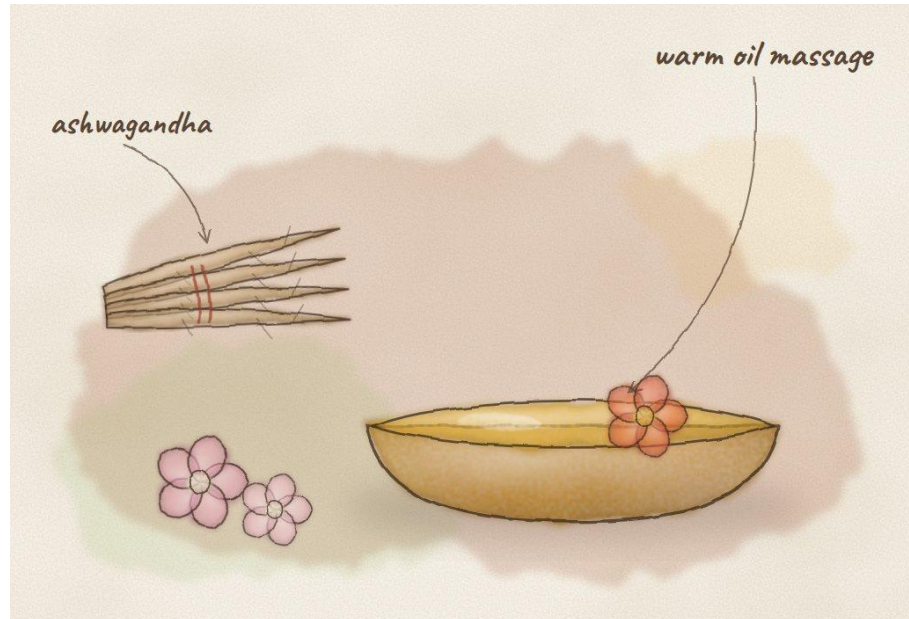

- ~ Pregnancy
- ~ Blood-thinning medicines without advice

Vaidya's note ~ Often combined with turmeric — the two complement each other for joint comfort.

32 Mahanarayan Taila

महानारायण तैल

TAILA · तैल | MEDICATED OIL

made from ~ Sesame oil base processed with Shatavari, Ashwagandha, Bala, Dashmool, Rasna and more than 30 other herbs.

Uses उपयोग

- 1 Joint pain · जोड़ों का दर्द
- 2 Muscle stiffness · मांसपेशियों की अकड़न
- 3 Sprains (after swelling settles) · मोच
- 4 Vata massage · वात शमन मालिश

How to take सेवन विधि

dose · **As needed, external use only**

when · Before a warm bath

take with · Warm the oil and massage gently

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

~ Skin irritation in sensitive skin

Avoid or take care if सावधानी

- ~ Broken skin or open wounds
- ~ Hot, red, freshly swollen joints

Vaidya's note ~ After massaging, apply a warm towel compress for 10 minutes to help the oil penetrate.

chapter seven

Heart & Circulation

हृदय एवं रक्त संचार

Ayurveda calls the heart 'Hridaya' — the seat of Ojas, the essence of vitality. Heart medicines here support circulation and blood pressure, but they work alongside — never instead of — modern cardiac care.

33 Arjuna (Arjun Chhal)

34 Arjunarishta

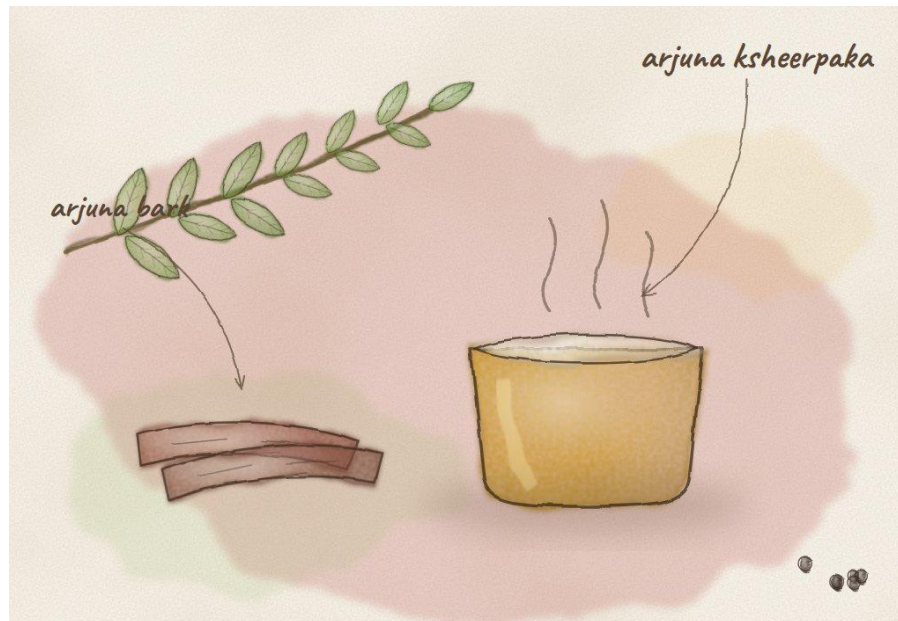

35 Sarpagandha Vati

33 Arjuna (Arjun Chhal)

अर्जुन छाल

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Bark of the *Terminalia arjuna* tree.

Uses उपयोग

- 1 Heart muscle support · हृदय की मांसपेशियों को बल
- 2 High blood pressure — supportive · उच्च रक्तचाप में सहायक
- 3 Cholesterol · कोलेस्ट्रॉल
- 4 Palpitations from stress · घबराहट

How to take सेवन विधि

dose · **3–6 g powder, or 500 mg capsule**

when · Twice daily

take with · Boiled in milk (Arjuna Ksheerpaka)

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Constipation
- ~ Mild stomach upset

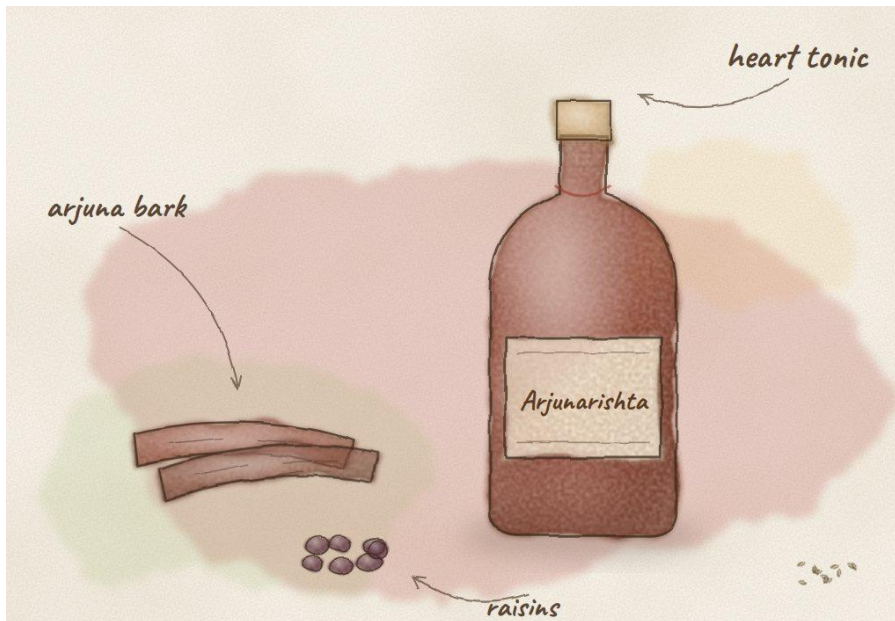

Avoid or take care if सावधानी

- ~ Heart medicines without your cardiologist's knowledge
- ~ Pregnancy

Vaidya's note ~ Arjuna Ksheerpaka: boil 5 g bark powder in 100 ml milk + 100 ml water until half remains, then strain and drink.

34 Arjunarishta

अर्जुनारिष्ट ASAVA / ARISHTA · आसव / अरिष्ट | NATURALLY FERMENTED LIQUID

made from ~ Fermented preparation of Arjuna bark with raisins, Mahua flowers and jaggery.

Uses उपयोग

- 1 Heart weakness · हृदय की कमजोरी
- 2 Palpitations · धड़कन बढ़ना
- 3 Blood pressure — supportive · रक्तचाप में सहायक
- 4 Fatigue · थकान

How to take सेवन विधि

dose · **15–20 ml**

when · Twice daily after meals

take with · Mixed with an equal amount of water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Acidity
- ~ Contains self-generated alcohol

Avoid or take care if सावधानी

- ~ Diabetes
- ~ Liver disease or alcohol sensitivity
- ~ Pregnancy

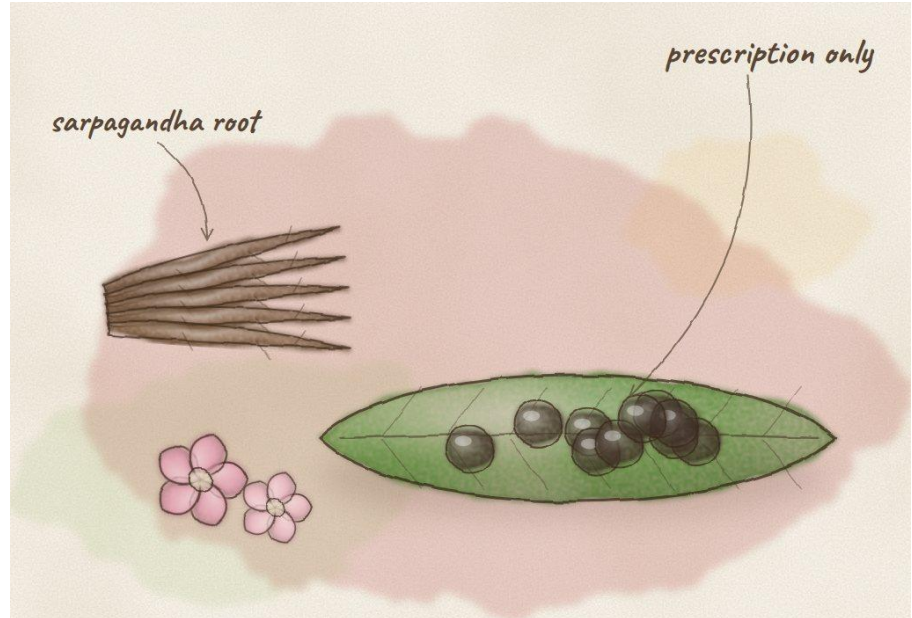

Vaidya's note ~ Also called 'Parthadyarishta' — Partha being another name for Arjuna.

35 Sarpagandha Vati

सर्पगंधा वटी

VATI · वटी | TABLET OR PILL

UNDER MEDICAL SUPERVISION — contains minerals or potent herbs

made from ~ Sarpagandha root (*Rauwolfia serpentina*) with Khurasani ajwain, Jatamansi and other calming herbs.

Uses उपयोग

- 1 High blood pressure · उच्च रक्तचाप
- 2 Insomnia · अनिद्रा
- 3 Agitation · उत्तेजना
- 4 Anxiety · चिंता

How to take सेवन विधि

dose · **1–2 tablets as prescribed**

when · Usually at night

take with · Water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Nasal stuffiness, drowsiness
- ~ Low mood or depression
- ~ Very low blood pressure

Avoid or take care if सावधानी

- ~ Depression (past or present)
- ~ Peptic ulcer
- ~ Pregnancy
- ~ Combining with BP medicines without a doctor

Vaidya's note ~ Rauwolfia is the source of reserpine, a powerful BP drug. This is a prescription-level medicine, not a supplement.

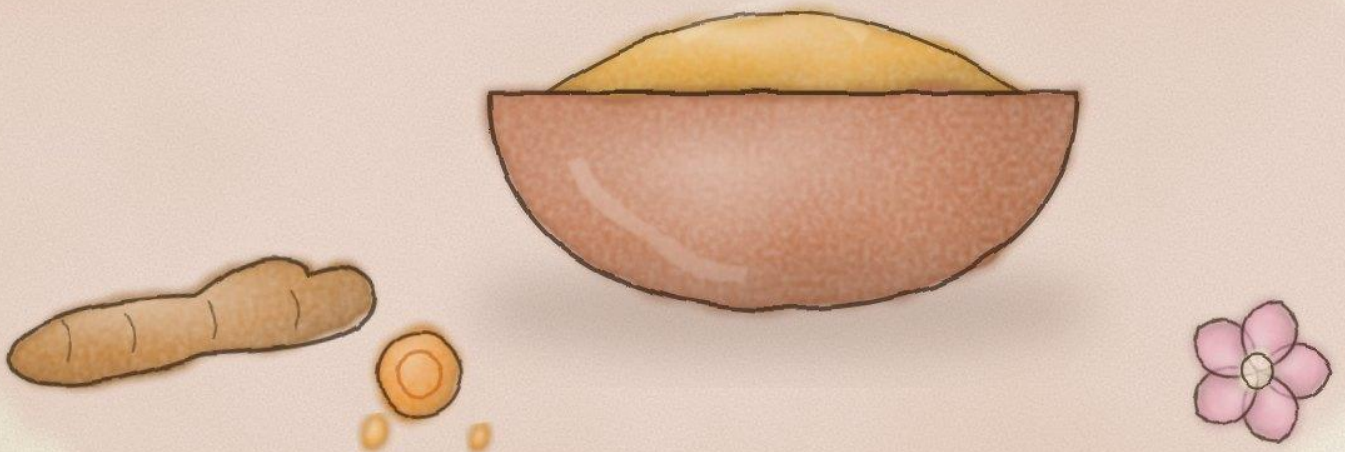

chapter eight

Skin Health

त्वचा स्वास्थ्य

Ayurveda sees the skin as a mirror of the blood (Rakta) and digestion. Most skin formulas are 'blood purifiers' — bitter, cooling herbs taken internally to clear heat and toxins that show up as acne, itching and rashes.

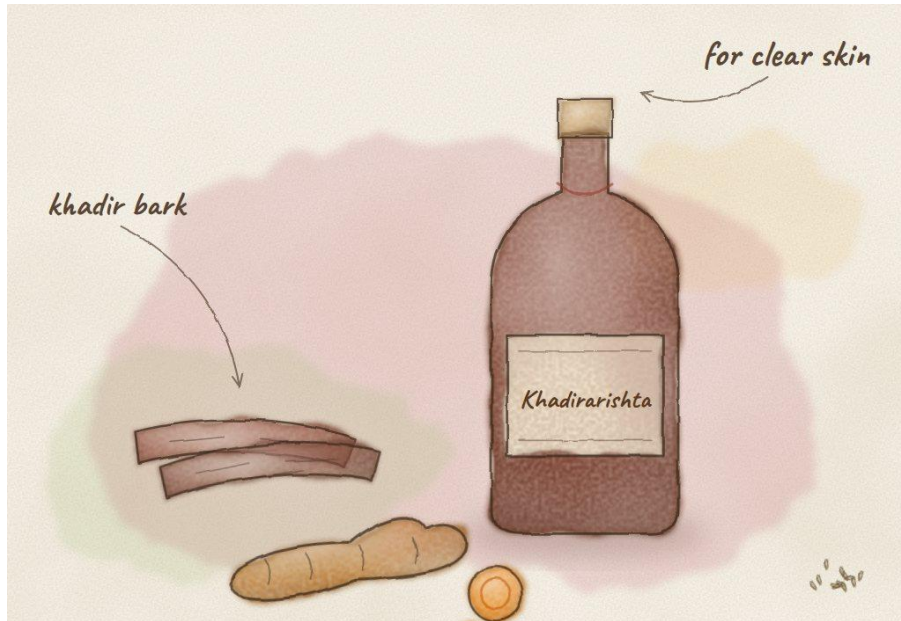

- 36 Khadirarishta
- 37 Gandhak Rasayan
- 38 Mahamanjishthadi Kwath
- 39 Haridra Khand
- 40 Neem (Nimba)

36 Khadirarishta

खदिरारिष्ट

ASAVA / ARISHTA · आसव / अरिष्ट | NATURALLY FERMENTED LIQUID

made from ~ Fermented preparation of Khadir (catechu), Devdaru, Bakuchi, Daruharidra, Triphala and other herbs.

Uses उपयोग

- 1 **Acne and boils** · मुंहासे व फोड़े
- 2 **Eczema** · एक्जिमा
- 3 **Chronic itching** · पुरानी खुजली
- 4 **Blood purification** · रक्त शोधन

How to take सेवन विधि

dose · **15–20 ml**

when · **Twice daily after meals**

take with · **Mixed with an equal amount of water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Acidity in some people
- ~ Contains self-generated alcohol

Avoid or take care if सावधानी

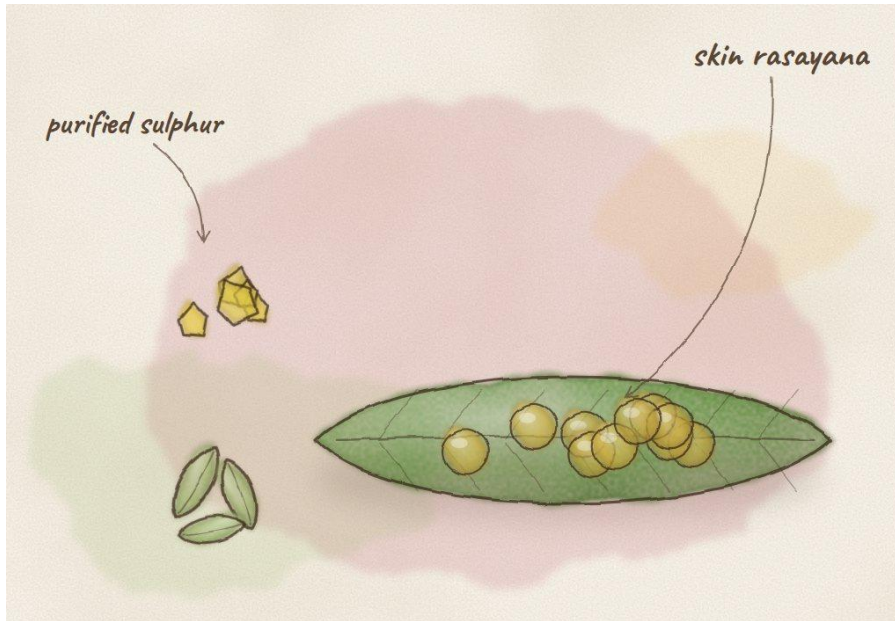

- ~ Pregnancy
- ~ Diabetes
- ~ Liver disease

Vaidya's note ~ Results take time — skin formulas are usually taken for 6–8 weeks with a light, low-oil diet.

37 Gandhak Rasayan

गंधक रसायन

RASA AUSHADHI · रस औषधि | HERBO-MINERAL MEDICINE

made from ~ Purified sulphur (Shuddha Gandhak) processed with Giloy, Triphala, ginger, cardamom and cinnamon.

Uses उपयोग

- 1 Boils and skin infections · फोड़े-फुंसी
- 2 Fungal itching · फंगल खुजली
- 3 Chronic skin conditions · पुराने त्वचा रोग
- 4 Wound healing · घाव भरना

How to take सेवन विधि

dose · **250–500 mg (1–2 tablets)**

when · Twice daily after meals

take with · Water or milk

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Heat, acidity
- ~ Loose stools
- ~ Sulphur smell in sweat

Avoid or take care if सावधानी

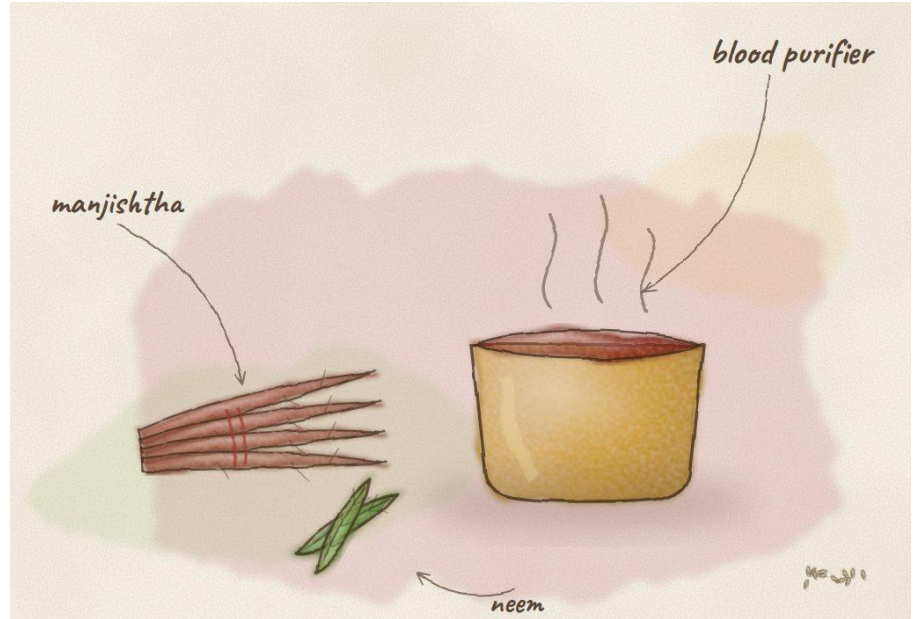

- ~ Pregnancy
- ~ Severe acidity or ulcers

Vaidya's note ~ One of the few classical 'rasayana' minerals that is plant-processed sulphur only, without heavy metals.

38 Mahamanjishthadi Kwath

महामंजिष्ठादि काथ

KWATH · कथ | HERBAL DECOCTION

made from ~ Decoction of Manjishtha with over 40 herbs including Neem, Khadir, Haridra, Triphala and Kutki.

Uses उपयोग

- 1 Acne and pigmentation · मुंहासे व दाग
- 2 Psoriasis — supportive · सोरायसिस में सहायक
- 3 Urticaria · पित्ती
- 4 Blood purification · रक्त शोधन

How to take सेवन विधि

dose · **15–20 ml**

when · Twice daily before meals

take with · Mixed with an equal amount of water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Bitter taste
- ~ Mild stomach upset

Avoid or take care if सावधानी

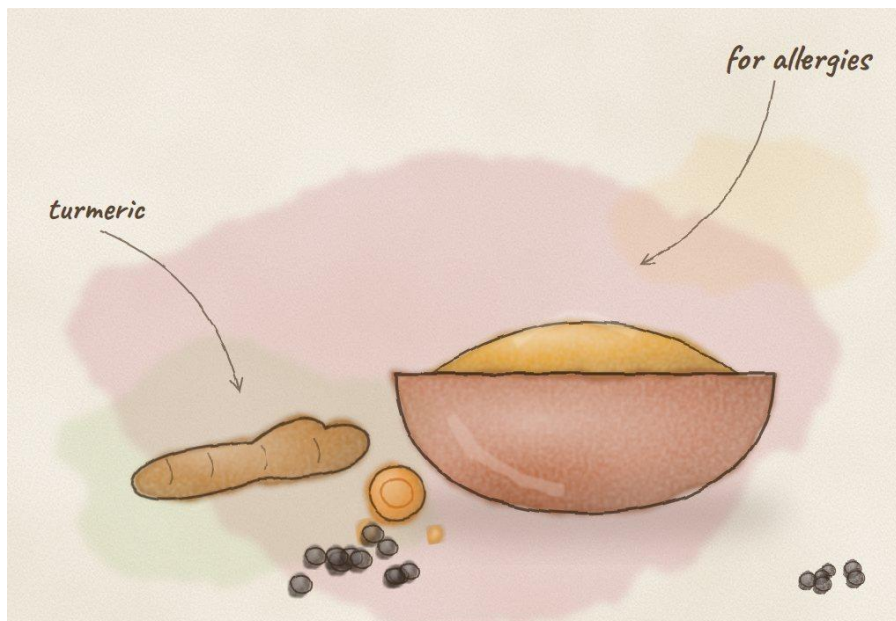

- ~ Pregnancy
- ~ Diarrhoea

Vaidya's note ~ Manjishtha is a natural red dye — it can tint urine slightly reddish, which is harmless.

39 Haridra Khand

हरिद्रा खंड

CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Turmeric (Haridra) as the main herb, with Trikatu, Triphala, Nagkesar, cardamom, sugar and ghee.

Uses उपयोग

- 1 Skin allergy · त्वचा की एलर्जी
- 2 Hives (urticaria) · पित्ती
- 3 Itching · खुजली
- 4 Allergic cold · एलर्जिक जुकाम

How to take सेवन विधि

dose · **3–6 g**

when · **Twice daily**

take with · **Warm milk or water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Raises blood sugar
- ~ Acidity in some people

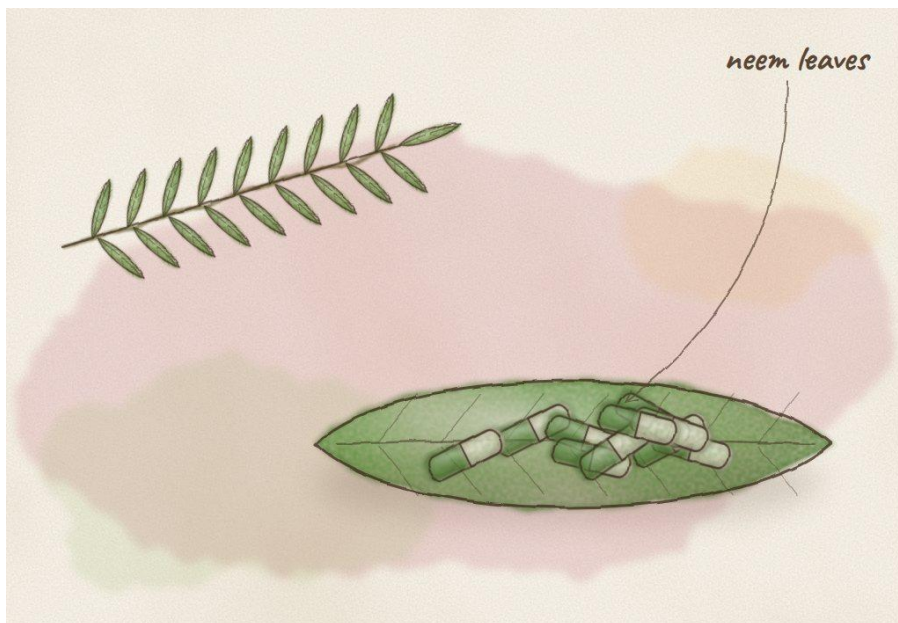

Avoid or take care if सावधानी

- ~ Diabetes
- ~ Gallstones (turmeric)

Vaidya's note ~ A popular choice for seasonal allergies that affect both skin and nose.

40 Neem (Nimba)

नीम SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Leaves of *Azadirachta indica*.

Uses उपयोग

- 1 Acne · मुंहासे
- 2 Itching and rashes · खुजली व चकत्ते
- 3 Blood purification · रक्त शोधन
- 4 Dandruff (topical) · रूसी

How to take सेवन विधि

dose · **1–2 capsules (500 mg) or 1–3 g leaf powder**

when · Twice daily, short courses

take with · Water

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ May lower blood sugar
- ~ Stomach upset

Avoid or take care if सावधानी

- ~ Pregnancy and those trying to conceive
- ~ Infants and children (especially neem oil, never by mouth)
- ~ Long continuous use

Vaidya's note ~ For skin, a paste of neem leaf powder with rose water makes a simple face pack.

chapter nine

Urinary & Kidney Care

मूत्र एवं गुर्दा स्वास्थ्य

Urinary complaints in Ayurveda are grouped as Mutrakricchra (painful urination) and Ashmari (stones). Cooling, diuretic herbs like Gokshura, Punarnava and Varuna help flush the tract and reduce burning.

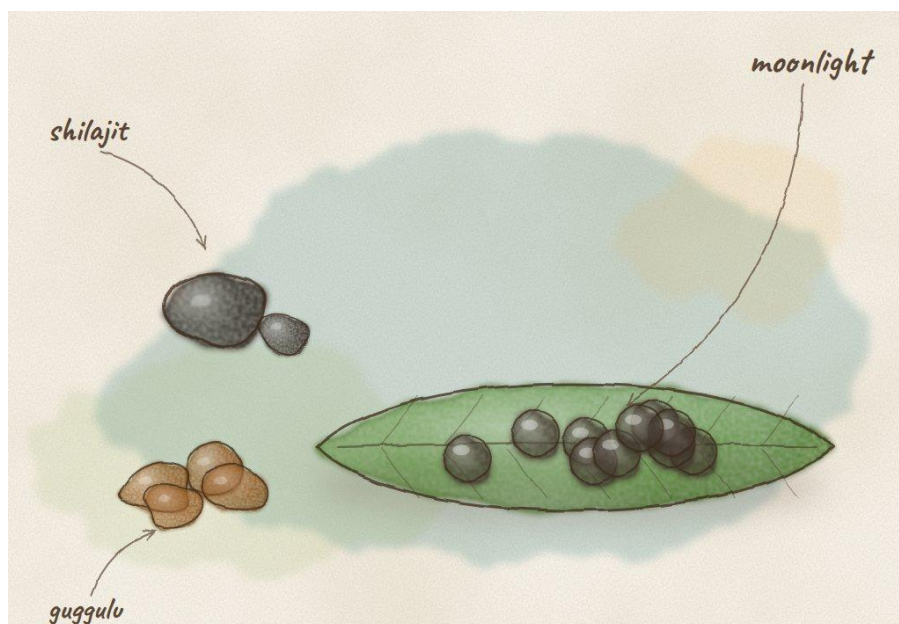

- 41 Chandrababha Vati
- 42 Gokshuradi Guggulu
- 43 Punarnavasava
- 44 Varunadi Kwath

41 Chandraprabha Vati

चंद्रप्रभा वटी

VATI · वटी | TABLET OR PILL

made from ~ Shilajit, Guggulu, Loha bhasma, sugar, Trikatu, Triphala, Vacha, Musta, Daruharidra and others — about 37 ingredients.

Uses उपयोग

- 1 **Urinary tract infection — supportive** · मूत्र संक्रमण में सहायक
- 2 **Burning urination** · पेशाब में जलन
- 3 **Prostate enlargement** · प्रोस्टेट बढ़ना
- 4 **Diabetes — supportive** · मधुमेह में सहायक

How to take सेवन विधि

dose · **1–2 tablets (250 mg)**

when · **Twice daily after meals**

take with · **Water or milk**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Acidity
- ~ Constipation (iron)

Avoid or take care if सावधानी

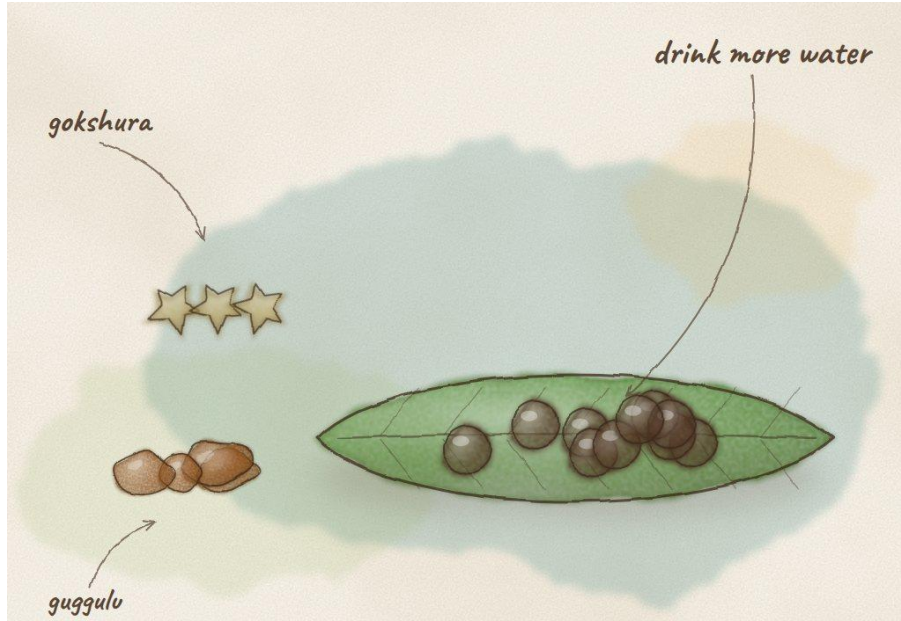

- ~ Pregnancy
- ~ Iron overload
- ~ Use without advice in kidney disease

Vaidya's note ~ 'Chandraprabha' means moonlight — a reference to its cooling, soothing action on the urinary tract.

42 Gokshuradi Guggulu

गोक्षुरादि गुग्गुलु

GUGGULU · गुग्गुलु | RESIN-BASED TABLET

made from ~ Gokshura (Tribulus) and Guggulu with Triphala, Trikatu and Musta.

Uses उपयोग

- 1 Painful urination · पेशाब में दर्द
- 2 Kidney stones — supportive · पथरी में सहायक
- 3 Prostate problems · प्रोस्टेट
- 4 Gout · गाउट

How to take सेवन विधि

dose · **1–2 tablets**

when · **2–3 times daily after meals**

take with · **Water or Gokshura decoction**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Mild acidity
- ~ Stomach upset

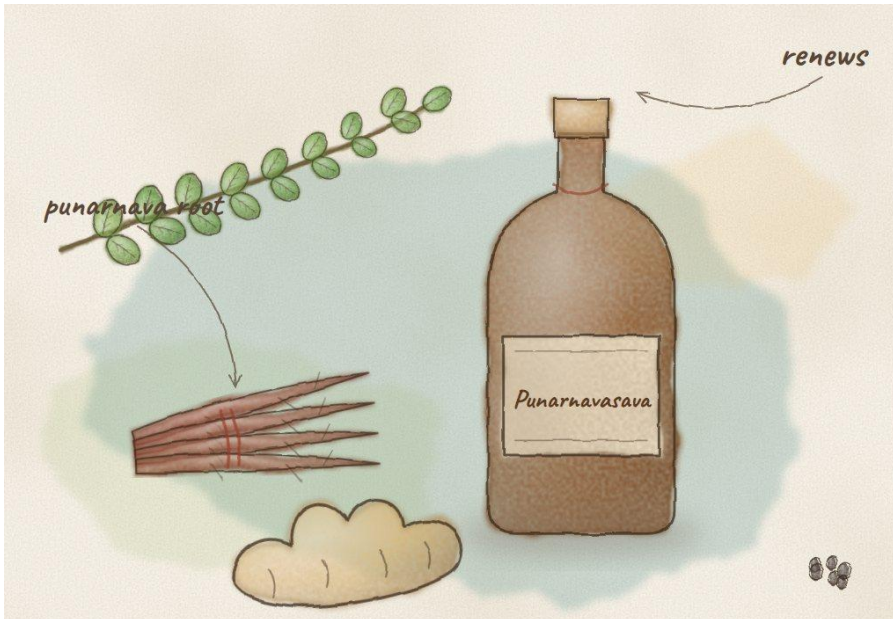

Avoid or take care if सावधानी

- ~ Pregnancy
- ~ Severe kidney disease without a nephrologist

Vaidya's note ~ Drink 2.5–3 litres of water a day while taking any medicine for urinary health.

43 Punarnavasava

पुनर्नवासव ASAVA / ARISHTA · आसव / अरिष्ट | NATURALLY FERMENTED LIQUID

made from ~ Fermented preparation of Punarnava (Boerhavia diffusa) with Trikatu, Triphala, Chitrak, Gokshura and jaggery.

Uses उपयोग

- 1 **Swelling / water retention** · सूजन / शरीर में पानी रुकना
- 2 **Kidney support** · गुर्दों को बल
- 3 **Liver enlargement** · बढ़ा हुआ लिवर
- 4 **Low urine output** · कम पेशाब

How to take सेवन विधि

dose · **15–20 ml**

when · **Twice daily after meals**

take with · **Mixed with an equal amount of water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Increased urination (expected)
- ~ Contains self-generated alcohol

Avoid or take care if सावधानी

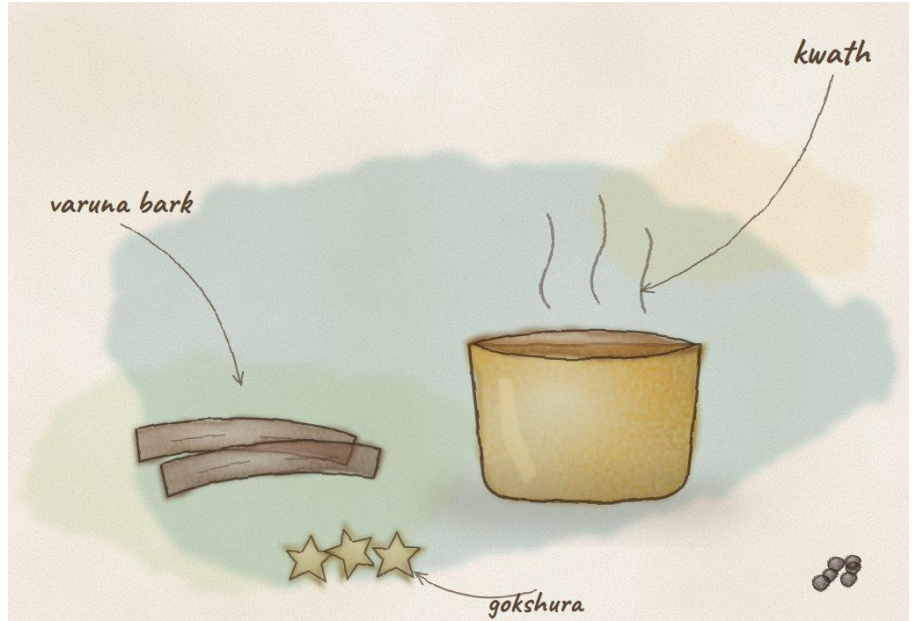

- ~ Pregnancy
- ~ Diabetes
- ~ Dehydration

Vaidya's note ~ 'Punarnava' means 'that which renews' — the herb itself regrows each monsoon.

44 Varunadi Kwath

वरुणादि काथ

KWATH · काथ | HERBAL DECOCTION

made from ~ Decoction of Varuna bark with Gokshura, Pashanbhed, Shatavari, Bilva and other herbs.

Uses उपयोग

- 1 **Kidney and bladder stones** · गुर्दे व मूत्राशय की पथरी
- 2 **Burning urination** · पेशाब में जलन
- 3 **Urinary retention** · पेशाब रुकना
- 4 **Prostate swelling** · प्रोस्टेट की सूजन

How to take सेवन विधि

dose · **15–20 ml**

when · **Twice daily before meals**

take with · **Mixed with an equal amount of water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Increased urination
- ~ Mild stomach upset

Avoid or take care if सावधानी

- ~ Pregnancy
- ~ Large stones or severe pain — see a doctor first

Vaidya's note ~ Severe colicky pain, fever or blood in urine needs urgent medical attention, not home treatment.

chapter ten

Women's Health

स्त्री स्वास्थ्य

Ayurveda devotes an entire branch, Prasuti Tantra, to women's health. These formulas support a regular, comfortable menstrual cycle, healthy recovery after childbirth and overall vitality through every stage of life.

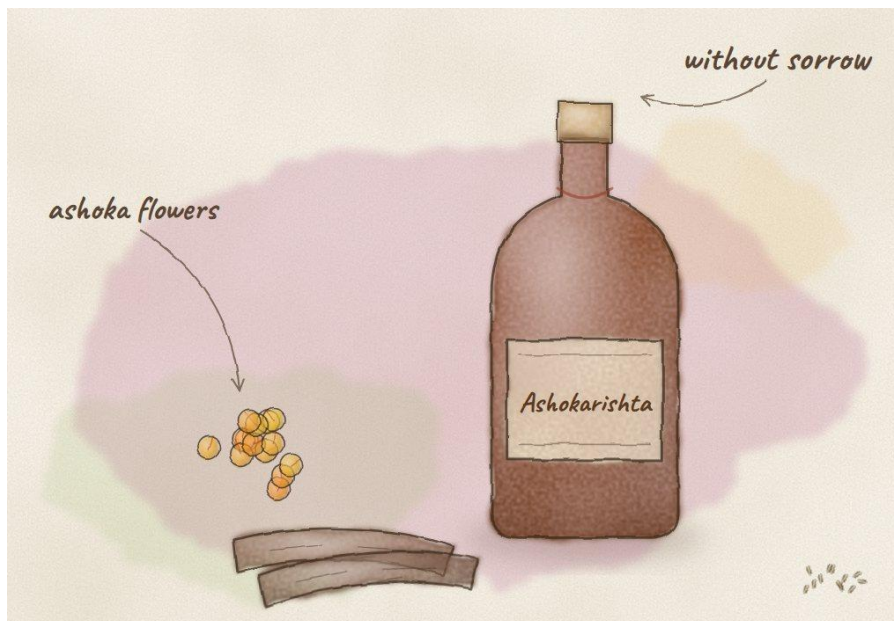

- 45 Ashokarishta
- 46 Shatavari
- 47 Pushyanug Churna
- 48 Dashmoolarishta

45 Ashokarishta

अशोकारिष्ट

ASAVA / ARISHTA · आसव / अरिष्ट | NATURALLY FERMENTED LIQUID

made from ~ Fermented preparation of Ashoka bark with Dhataki flowers, jaggery, Musta, Daruharidra, Amla and other herbs.

Uses उपयोग

- 1 **Heavy periods** · अधिक मासिक साव
- 2 **Painful periods** · मासिक धर्म का दर्द
- 3 **Irregular cycles** · अनियमित माहवारी
- 4 **Leucorrhoea** · श्वेत प्रदर

How to take सेवन विधि

dose · **15–20 ml**

when · **Twice daily after meals**

take with · **Mixed with an equal amount of water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Mild acidity
- ~ Contains self-generated alcohol

Avoid or take care if सावधानी

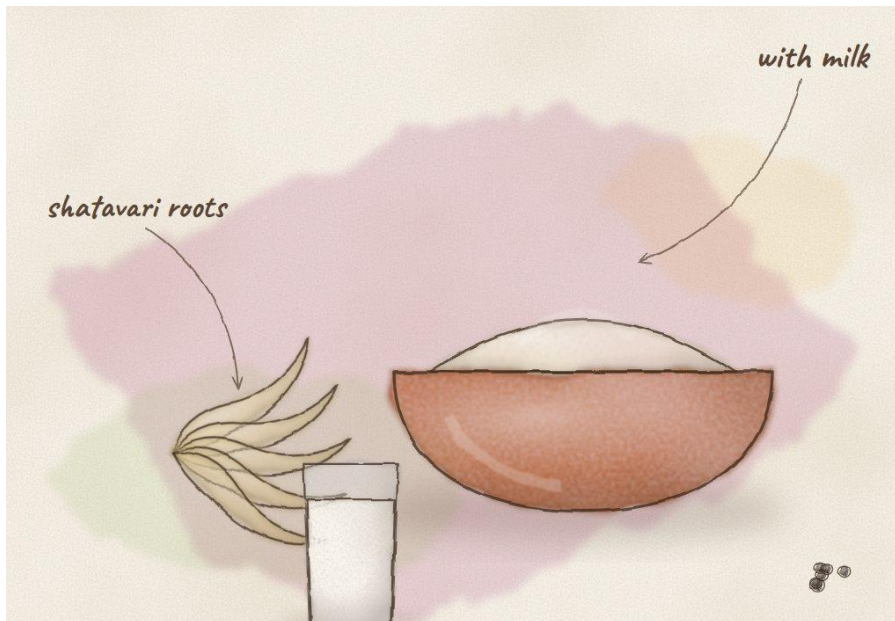

- ~ Pregnancy
- ~ Diabetes
- ~ Heavy bleeding without a gynaecological check-up

Vaidya's note ~ 'Ashoka' means 'without sorrow' — the tree is a traditional symbol of women's wellbeing.

46 Shatavari

शतावरी

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Root of *Asparagus racemosus*.

Uses उपयोग

- 1 **Breast-milk production** · स्तनपान में दूध बढ़ाना
- 2 **Hormonal balance** · हार्मोन संतुलन
- 3 **Menopause discomfort** · रजोनिवृत्ति की तकलीफ
- 4 **Acidity** · एसिडिटी

How to take सेवन विधि

dose · **3–6 g**

when · **Twice daily**

take with · **Warm milk**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Heaviness or weight gain
- ~ Bloating

Avoid or take care if सावधानी

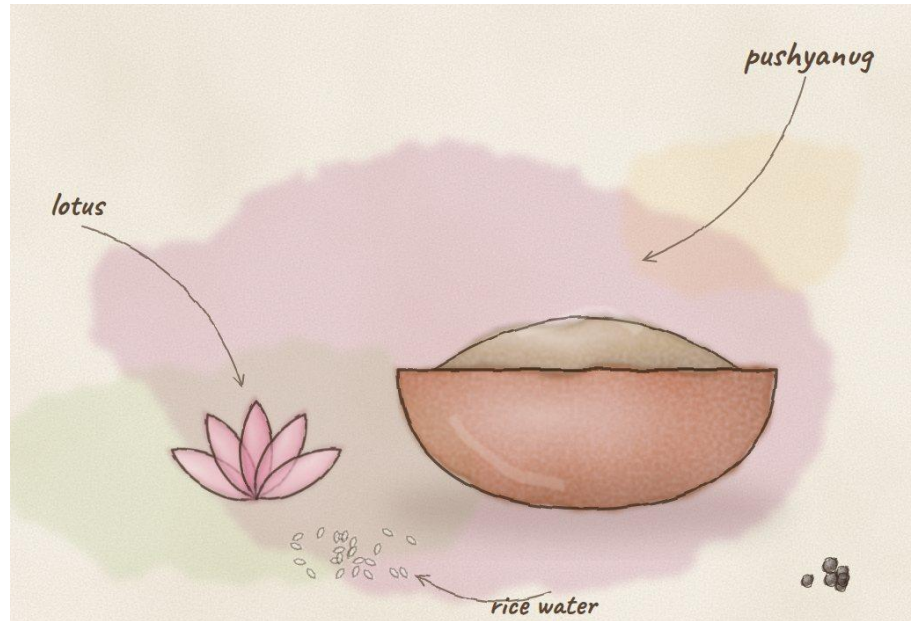

- ~ Hormone-sensitive conditions without advice
- ~ Kidney disease
- ~ Asparagus allergy

Vaidya's note ~ Its name means 'she who has a hundred husbands', reflecting its reputation as a women's rejuvenative.

47 Pushyanug Churna

पुष्यानुग चूर्ण

CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Lodhra, Patha, Jamun and mango seed kernels, Mocharas, Nagkesar, Manjishtha and other astringent herbs, gathered under the Pushya constellation.

Uses उपयोग

- 1 **Leucorrhoea** · श्वेत प्रदर
- 2 **Heavy menstrual bleeding** · अधिक रक्तस्राव
- 3 **Diarrhoea** · दस्त
- 4 **Bleeding piles** · खूनी बवासीर

How to take सेवन विधि

dose · **3–6 g**

when · **Twice daily**

take with · **Rice water (Tandulodak) with honey**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

~ Constipation

Avoid or take care if सावधानी

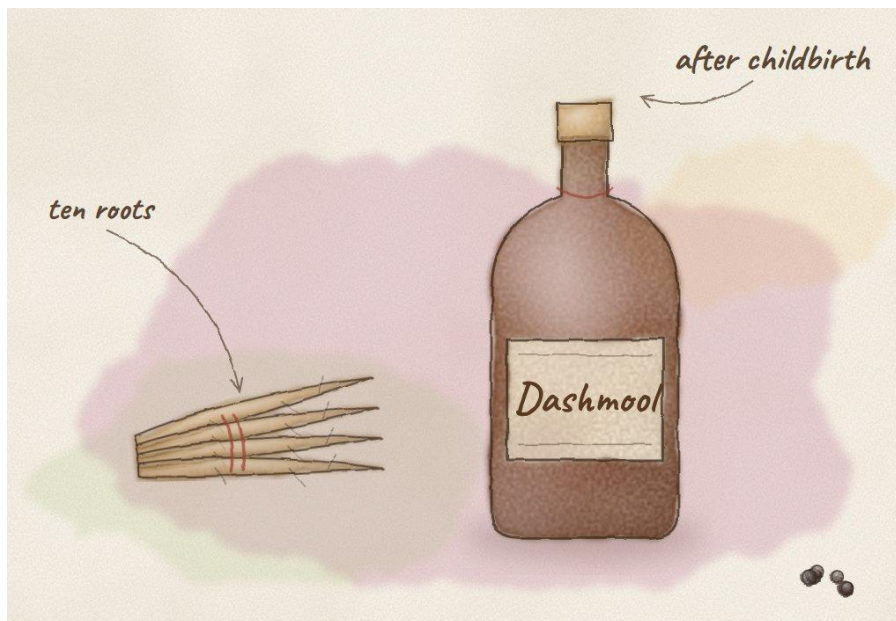

- ~ Pregnancy
- ~ Constipation

Vaidya's note ~ Rice water, the classical vehicle, is made by soaking washed rice in water for a few hours.

48 Dashmoolarishta

दशमूलारिष्ट

ASAVA / ARISHTA · आसव / अरिष्ट | NATURALLY FERMENTED LIQUID

made from ~ Fermented preparation of Dashmool (the ten roots) with Chitrak, Lodhra, Giloy, Amla, raisins and many other herbs.

Uses उपयोग

- 1 **Recovery after childbirth** · प्रसव के बाद कमज़ोरी
- 2 **Back and body pain** · कमर व शरीर दर्द
- 3 **General weakness** · सामान्य कमज़ोरी
- 4 **Digestive weakness** · पाचन की कमज़ोरी

How to take सेवन विधि

dose · **15–20 ml**

when · **Twice daily after meals**

take with · **Mixed with an equal amount of water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Acidity
- ~ Contains self-generated alcohol

Avoid or take care if सावधानी

- ~ Pregnancy
- ~ Diabetes
- ~ Breastfeeding mothers — check with a doctor

Vaidya's note ~ 'Dashmool' (ten roots) is a group of five large and five small plant roots that calm Vata.

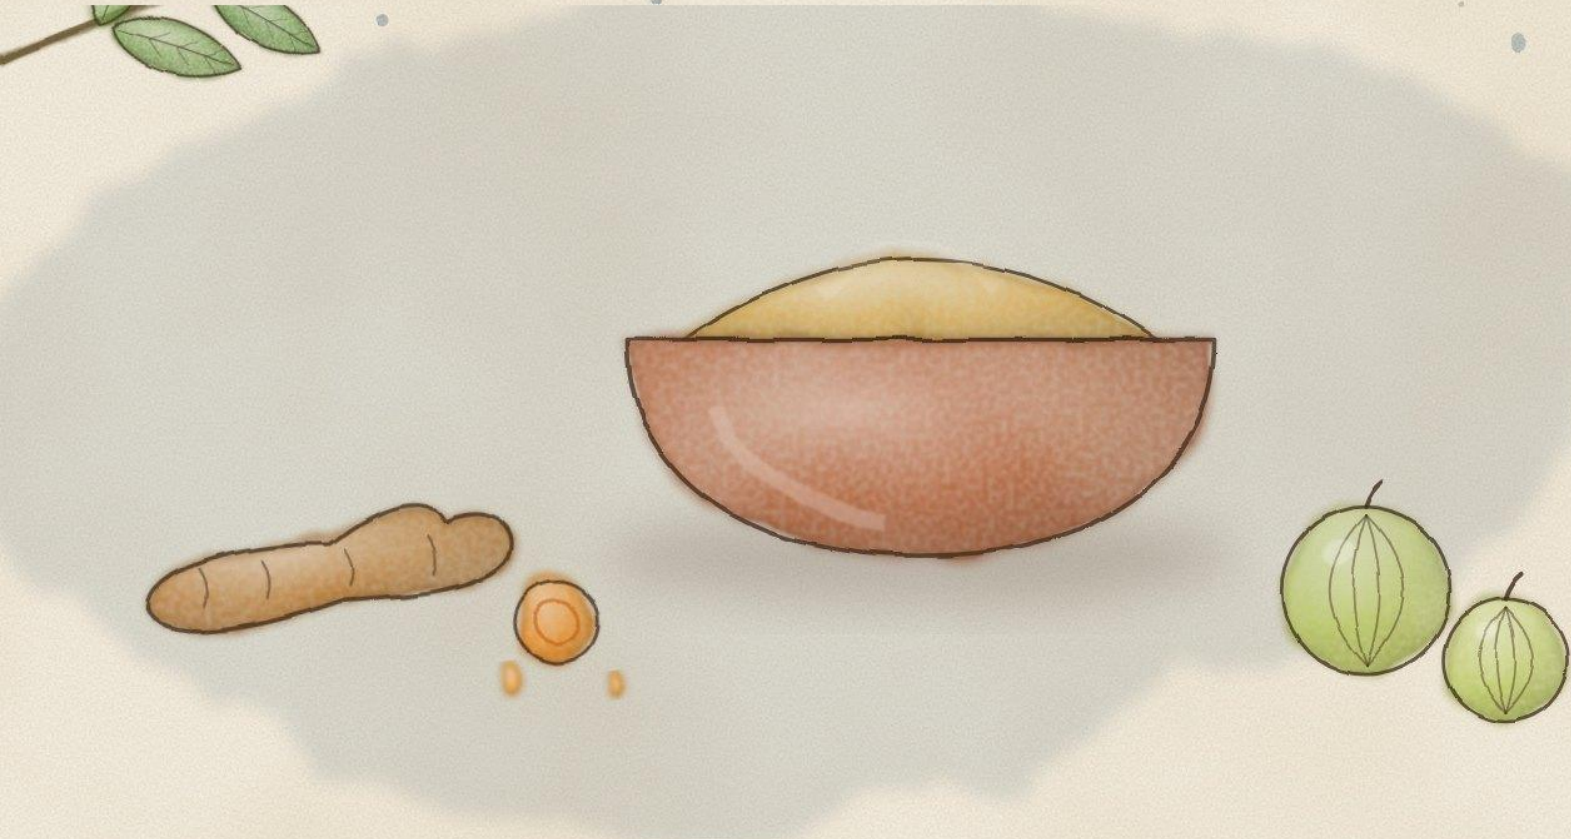

chapter eleven

Sugar & Weight

मधुमेह एवं वज़न

Prameha (diabetes) and Sthaulya (obesity) are lifestyle disorders of Kapha and Meda (fat tissue). Ayurvedic herbs help, but diet, daily movement and regular blood tests always come first.

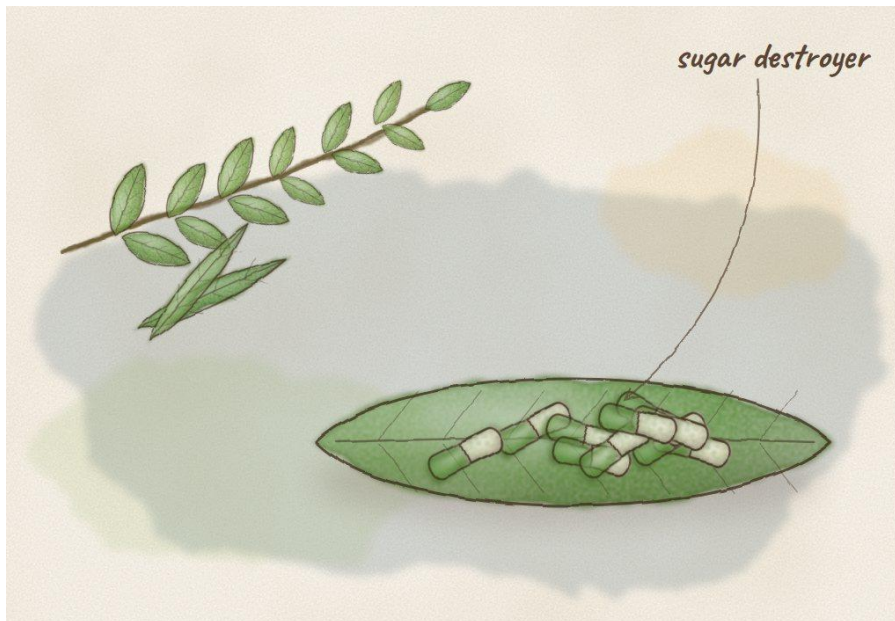

- 49 Gudmar
- 50 Nishamalaki
- 51 Medohar Guggulu
- 52 Triphala Guggulu

49 Gudmar

गुड़मार

SINGLE HERB · एकल औषधि | POWDER, CAPSULE OR EXTRACT

made from ~ Leaves of *Gymnema sylvestre* — the name means 'sugar destroyer'.

Uses उपयोग

- 1 **Blood sugar support** · ब्लड शुगर नियंत्रण में सहायक
- 2 **Sugar cravings** · मीठे की इच्छा
- 3 **Weight management** · वज़न नियंत्रण
- 4 **Cholesterol** · कोलेस्ट्रॉल

How to take सेवन विधि

dose · **2–4 g powder, or 1–2 capsules**

when · **Twice daily before meals**

take with · **Water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Low blood sugar (hypoglycaemia) with diabetes medicines
- ~ Mild stomach upset

Avoid or take care if सावधानी

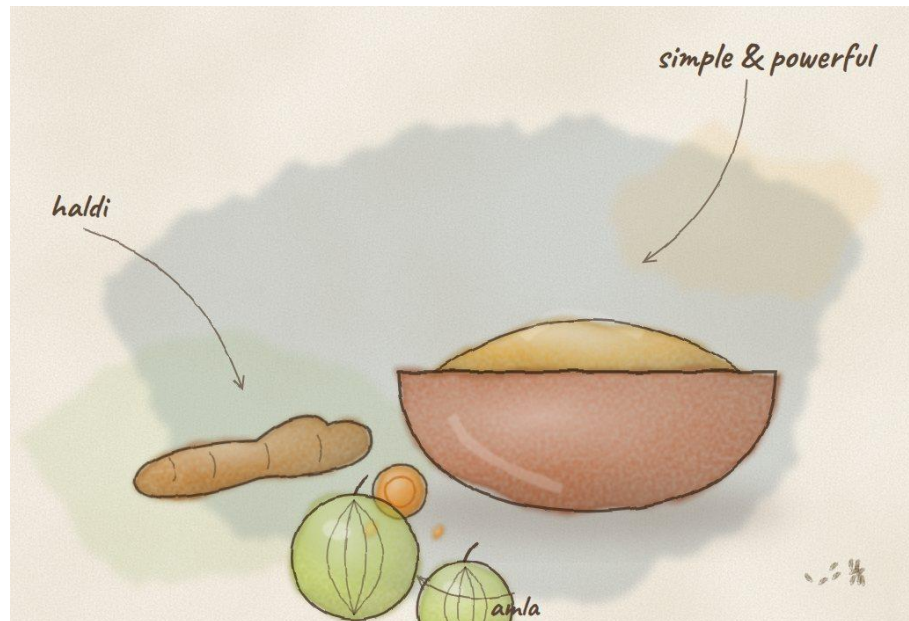

- ~ Taking with insulin or diabetes tablets without monitoring
- ~ Pregnancy

Vaidya's note ~ Chewing a leaf temporarily blocks the taste of sweetness — a fun demonstration of how it works.

50 Nishamalaki

निशामलकी

CHURNA · चूर्ण | FINE HERBAL POWDER

made from ~ Equal parts of turmeric (Nisha) and Amla (Amalaki).

Uses उपयोग

- 1 **Diabetes — supportive** · मधुमेह में सहायक
- 2 **Diabetic skin problems** · मधुमेह में त्वचा रोग
- 3 **Eye health** · आँखों का स्वास्थ्य
- 4 **Antioxidant support** · एंटीऑक्सीडेंट

How to take सेवन विधि

dose · **3–6 g**

when · **Twice daily**

take with · **Water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Acidity in some people
- ~ May lower blood sugar

Avoid or take care if सावधानी

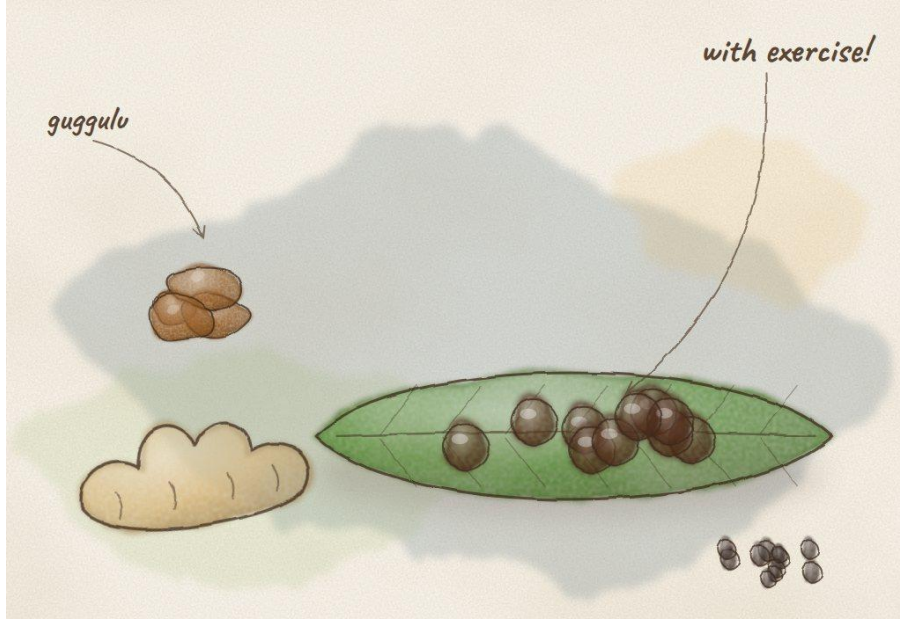

- ~ Gallstones
- ~ Diabetes medicines without monitoring

Vaidya's note ~ Charaka recommends this pair as one of the best remedies for Prameha — simple, inexpensive and well-tolerated.

51 Medohar Guggulu

मेदोहर गुग्गुलु

GUGGULU · गुग्गुलु | RESIN-BASED TABLET

made from ~ Guggulu with Triphala, Trikatu, Chitrak, Musta and Vidanga.

Uses उपयोग

- 1 Weight management · वजन घटाना
- 2 High cholesterol · उच्च कोलेस्ट्रॉल
- 3 Hypothyroid sluggishness — supportive · सुस्त चयापचय
- 4 Fatty liver · फैटी लिवर

How to take सेवन विधि

dose · **1–2 tablets**

when · **Twice daily before meals**

take with · **Warm water or honey water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Acidity
- ~ Loose stools

Avoid or take care if सावधानी

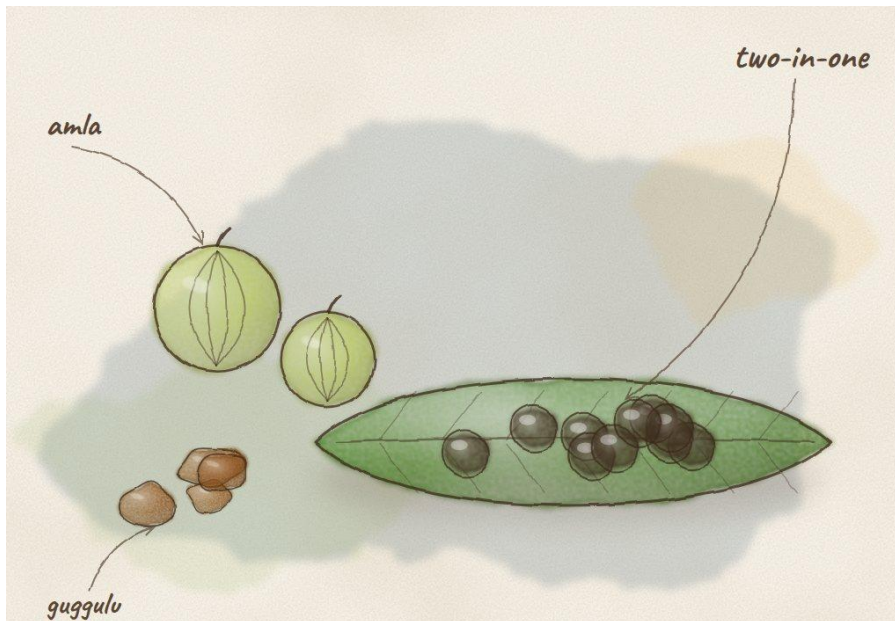

- ~ Pregnancy
- ~ Thyroid medication without advice
- ~ Underweight persons

Vaidya's note ~ Works best alongside exercise and a lighter evening meal; tablets alone will not shift weight.

52 Triphala Guggulu

त्रिफला गुग्गुलु

GUGGULU · गुग्गुलु | RESIN-BASED TABLET

made from ~ Triphala, Guggulu and Pippali.

Uses उपयोग

- 1 Weight management · वजन नियंत्रण
- 2 Piles and fistula · बवासीर व भगंदर
- 3 Wounds and swelling · घाव व सूजन
- 4 Joint pain · जोड़ों का दर्द

How to take सेवन विधि

dose · **1–2 tablets**

when · **Twice daily after meals**

take with · **Warm water**

Usual adult dose. Children, elders and pregnant women need a doctor's dose.

Possible side effects दुष्प्रभाव

- ~ Loose stools
- ~ Acidity

Avoid or take care if सावधानी

- ~ Pregnancy
- ~ Diarrhoea

Vaidya's note ~ Combines the cleansing of Triphala with the scraping (lekhana) action of Guggulu.

at a glance

Quick reference A–Z

Medicine	Main use	Adult dose
Arjuna (Arjun Chhal) अर्जुन छाल	Heart muscle support	3–6 g powder, or 500 mg capsule
Arjunarishta अर्जुनारिष्ट	Heart weakness	15–20 ml
Arogyavardhini Vati आरोग्यवर्धिनी वटी	Fatty liver	250–500 mg (1–2 tablets) ●
Ashokarishta अशोकारिष्ट	Heavy periods	15–20 ml

Varunadi Kwath वरुणादि काथ	Kidney and bladder stones	15–20 ml
Vasavaleha वासावलेह	Chronic cough	5–10 g (1–2 teaspoons)
Yograj Guggulu योगराज गुग्गुलु	Joint pain and stiffness	1–2 tablets (250–500 mg each)

● = *only under medical supervision*

Glossary

Agni अग्नि — Digestive and metabolic fire.

Ama आम — Undigested residue; a root of disease.

Amavata आमवात — Joint disease from Ama and Vata, like rheumatoid arthritis.

Anupan अनुपान — The vehicle a medicine is taken with.

Bhasma भस्म — Calcined ash of a purified metal or mineral.

Dosha दोष — The three forces: Vata, Pitta, Kapha.

Ghan घन — Concentrated aqueous extract.

Lekhana लेखन — 'Scraping' action that reduces fat and Kapha.

Medhya मेध्य — Herbs that nourish intellect and memory.

Ojas ओज — The essence of vitality and immunity.

Prameha प्रमेह — Urinary disorders including diabetes.

Rasayana रसायन — Rejuvenation therapy.

Shodhana शोधन — Purification of herbs and minerals.

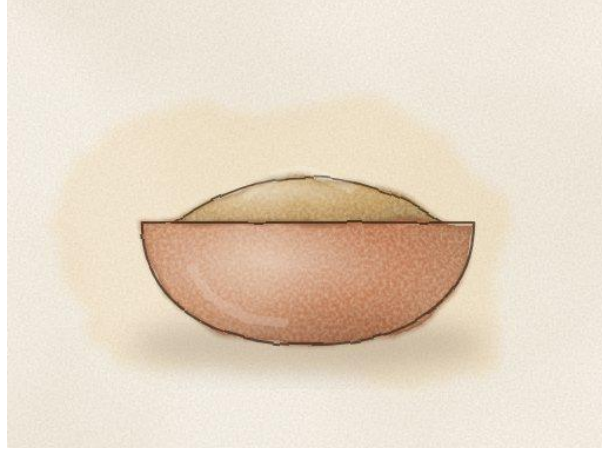

Shuddha शुद्ध — Purified, e.g. Shuddha Gandhak.

Trikatu त्रिकटु — Ginger, black pepper and long pepper.

Triphala त्रिफला — Haritaki, Bibhitaki and Amalaki.

Ushna / Sheeta उष्ण / शीत — Heating / cooling potency.

Vaidya वैद्य — A practitioner of Ayurveda.

Health is balance.

स्वस्थस्य स्वास्थ्य रक्षणम्, आतुरस्य विकार प्रशमनं च

"To protect the health of the healthy, and to relieve the illness of the sick" — the twin aims of Ayurveda. May this little book help you understand your medicines, and walk alongside the guidance of a good Vaidya.

For educational purposes only. Not a substitute for professional medical advice, diagnosis or treatment.
